Expect more

University of the Year for Student Experience*

"I like that the university provided me with opportunities to develop my team-working skills and the support on my course is great, especially the **sigma** maths skills sessions. I am growing as both an engineer and an individual, and it's great to have that feeling." See **page 16** to find out more.

UNIVERSITY
OF THE YEAR
FOR STUDENT
EXPERIENCE

Inspire me

2nd in UK for Teaching Excellence*

“My course is very practical with lots of facilities and lots of connections with the media industry. As some of my lecturers still work in media, they understand how the sector is constantly improving and evolving which I find very inspirational.”
See **page 18** to find out more.

Unjali Mistry
Media Production BA (Hons)

The Coventry University Group assessment strategy ensures that our courses are fairly assessed and allows us to monitor student progression towards achieving the intended learning outcomes. Assessments may include exams, individual assignments or group work elements. Please check your course page for specific information.

Information is correct at the time of going to print, however, changes may occur. Check our website, www.coventry.ac.uk (or, for Coventry University London, www.coventry.ac.uk/london) or contact us on +44 (0)24 7765 7688 before applying to study at Coventry University to check the most up-to-date position. Where there is a difference between the contents of this prospectus and the Coventry University or Coventry University London website, the contents of the applicable website take precedence and represent the basis on which we intend to deliver our services to you.

By accepting your offer of a place with us, a Student Contract ("the Contract") will be formed between you and the university. The Contract will detail all of your rights and also the obligations you will be bound by during your time as a student and will also contain all of the obligations that the university owes to you. You should read the Contract before you accept an offer of a place and before you enrol at the university.

Student experience

When you come to Coventry University, you can expect more from your experience here. In fact, we are the University of the Year 2019 for Student Experience (The Times and Sunday Times Good University Guide 2019), largely thanks to improvements we have made because of input from our students.

So what does this mean for you? Well, we like to give you as many opportunities as possible to gain new experiences while at university, and we can offer support while you try new things.

So, if you're interested in travel, we offer a range of opportunities to go on overseas trips, and work or study abroad¹. If you're an international student and you would like to join us in Coventry, we offer dedicated support with coming to the UK and while you're here in the UK. Our accommodation office, FutureLets, can help you find somewhere to live while you're a student and our student employment agency, thefutureworks could help you to find work during and upon completion of your course. Coventry University Students' Union runs a range of societies that are a great way to socialise. We care about your well-being and offer counselling as well as spiritual support through the Spirituality and Faith Centre in TheHub and subsidised gym membership in our modern sports facilities. For academic support, your course tutors can be contacted to discuss course content, and our library is open 24/7, 364 days a year for quiet study and resources. You'll also find our Centre of Academic Writing (CAW) and sigma maths support here.

When looking around at universities you may not have considered the cost of course essentials such as printing your work, course books, or compulsory UK visits. With our Flying Start scheme² we include some costs as part of your tuition fees, which is unlike many other universities. This support is tailored to your course content. What you get with Flying Start will depend on your course content and what your course tutor selects as most useful. Previous students have attended field trips, gained computer software and membership to industry-relevant professional bodies, offering networking opportunities and updates.

¹Subject to availability and application process. Fees apply.
²Available at Coventry University and Coventry University London.

Social

Our central social and services space, TheHub, means you'll always have somewhere on campus where you can grab a coffee between lectures. There's also a cinema, a range of cafés and restaurants, and Coventry University Students' Union (CUSU).

Accommodation

Make yourself at home in Coventry with our modern and comfortable accommodation. We have been investing £89m in our accommodation between 2016-19, which we believe will have a knock-on effect for the city-centre, boosting local shops and services.

Support

We offer dedicated services that can help with accommodation, visas, work placements, student loans, dissertations, health and well-being, course resources, faith and spirituality, and anything else important to you while you're with us.

Engagement

You'll have the freedom and responsibility to attend your classes and do the work set, independently. If you fall behind with your attendance for any reason, Student Services would check in with you to provide support and assistance.

Gold standard teaching

In 2017 we were awarded the top accolade of Gold in the Teaching Excellence Framework (TEF), a new government ranking of how well students are taught at UK universities. In the Guardian University Guide 2019 league table, Coventry University ranked 13th overall, ahead of many other universities in the Midlands.

Our teaching staff know what it takes to succeed – many have postgraduate qualifications and/or industry experience too and act as mentors, advisors and sounding boards who can help you to gain a deeper understanding of your subject. They strive to pass on the skills you'll need in your career. That's why 97% of our graduates are employed or in further study six months after graduation*, proving our teaching is useful beyond the classroom.

However, our most important feedback comes from our students and we are proud that they consistently rate us highly in national surveys, both for overall experience and for the standard of our teaching. In fact, 88% of our final-year students stated they were satisfied with the quality of teaching on their courses (National Student Survey 2018). Student-elected course reps represent their fellow students and communicate the views of students to their tutors and other university staff. This is just one of the ways we help to improve our course content and delivery for you.

Our multi-million pound, modern learning environments can immerse you in situations close to real-life work. You may have the opportunity, for example, to experience what it's like to work in an ambulance, in a courtroom, on a fashion show, or with the cars of the future. We offer innovative ways of learning too, such as our Disruptive Media Learning Lab which incorporates games and playful thinking with LEGO® bricks. You'll also find experimental learning areas and three themed creative project labs designed to help you think outside of the box. We hope you'll be inspired by our facilities and by our teaching staff, their experience, enthusiasm for their subject and genuine desire to help you learn.

www.coventry.ac.uk/inspire-me

Industry experts

Coventry University connects education and industry with experienced professionals passing on the benefit of their knowledge and their practical application of skills. You will be inspired and challenged to develop your understanding of your subject.

Teaching support

Our dedicated subject librarians are available to provide you with specialist help and support. They work with course tutors and provide both class teaching and one-to-one appointments, and can help you to find resources for your course.

Acting on feedback

Coventry University Students' Union (CUSU) Course and Service Reps feed students' views on teaching and learning back to the university. We are always looking for ways to improve our teaching and encourage you to have your say.

Research-led

Our teaching staff can advise you on your options for further study and many are research active themselves. We offer research-led teaching up to master's level in a wide range of disciplines and interests, after which you could apply for a PhD and pass on your knowledge to others.

*DLHE Survey 2016/17, (published 2018).

Awarded Gold for outstanding teaching and learning 2017.

Parlamentarium - Brussels, Belgium.

Global opportunities

Last year, we helped over 5,600 students to travel, work and study globally, in places like Brazil, Australia, China, Japan and the USA¹. We run 12 global programmes, including overseas trips, work placements and language classes. For example, as a Coventry University student, you could apply to spend between three and 12 months studying or working abroad, combining study one semester with work for another, or embark on international field trips or research².

Our reputation for helping you to become global ready is based on a lot more than our standing as the UK's number one provider of overseas student experiences³. You may have the opportunity to take part in advanced international workshops, global networking events, and gain exposure to inspirational industry leaders. You may have the opportunity to learn a new language, visit large multi-national organisations to learn how they operate, and gain exclusive access to internationally renowned speakers, from CEOs to high profile specialists, offering you invaluable networking opportunities².

You can gain global skills and experiences here in Coventry too – it's a multicultural city that welcomes students from more than 130 countries around the world. All students have the opportunity to learn another language here in Coventry too, and internationally-flavoured events are run on campus throughout the year, such as Tai Chi classes by the Confucius Institute and gatherings by student societies².

We've already helped thousands of students to gain a competitive edge in the employment market with the global skills and knowledge they gained with us.

Choose Coventry University and you could join them.

¹During academic year 2017/18.
²Subject to availability and application process. Fees apply.
³Based on the number of student trips abroad - HESA 2016/17.
⁴Students should be aware that there may be a change to UK laws and the UK's arrangements with other countries following the UK's planned exit from the European Union, this may change the UK's participation in the Erasmus scheme.
⁵Available at Coventry University and Coventry University London.

Linguae Mundi

Learn a new language with this innovative programme². With more than 30 languages available through face-to-face classes by native speakers, and even more to choose from online, you could gain cultural knowledge and add a key global skill to your portfolio.

Erasmus

The Erasmus scheme is a European-wide project which gives you the opportunity to study at a partner university or complete a work placement for up to a full academic year². You also have the choice of combining them both so you can work and study abroad⁴.

Global Leaders Programme (GLP)

This exciting, members-only programme develops industry leaders of the future². Expand your global skills in our specialist workshops, experience different countries, and hear inspirational speakers at global events. Previously we've welcomed NASA astronaut, Michael Foale as a GLP guest speaker.

International Experience Scheme

The International Experience scheme allows you to apply for financial support towards a project or placement with an international dimension, such as international exhibitions, summer work camps, and international conferences. Support may also be available through the Flying Start Scheme⁵.

Student city

Coventry is a global city – our university has more than 11,000 international students studying with us from more than 130 different countries, and students of all faiths and beliefs are welcome here. As a multicultural city, there are shops and restaurants with international flavours.

Coventry is an affordable city for students and was voted as the 4th most affordable university town in the UK (Marbles 2016) and in the top 100 most affordable student cities in the world¹. You'll find shops that cater to different budgets, ranging from the Coventry market to bistro restaurants. Coventry is also a Top 5 UK student city and one of the top 50 student cities in the world¹.

Coventry has been named City of Culture 2021 and is bursting with opportunities for culture fans. The Herbert Art Gallery & Museum at Jordan Well is worth a visit, especially for their curated arts events and nearby Fargo Village - the city's creative quarter, also runs a calendar of events throughout the year.

Theatre is well-catered for with The Belgrade Theatre, in central Coventry, the Art Deco, Albany Theatre on Butts Road and the Criterion in Earlsdon, or for something a little different, there's Escape Live Coventry – The escape room game in Fargo Village.

Movie-goers have the multiscreen Odeon at the SkyDome, the university's cinema in TheHub, and the Showcase cinema further out of town. Further out of town is the Coventry Music Museum celebrating Coventry's iconic musicians. Music fans have plenty to enjoy in Coventry, with live venues such as The Golden Cross, The Kasbah, Empire, JJ's, and The Tin Music and Arts at the Canal Basin.

www.coventry.ac.uk/city-spirit

Retail

We have an urban campus that sits less than five minutes walk from the city-centre, with popular high street shops including Primark, New Look, Topshop, Marks & Spencer, Waterstones and Debenhams. If you'd like a Scandinavian shopping experience, Coventry is home to one of the very few city-centre IKEA stores.

Food

Our shops and restaurants cater to global tastes with food from around the world. In the city-centre alone, you could sample Middle Eastern food, Caribbean, Indian, British, Asian, Italian, French, Japanese, Latin American and American food, and more. Not to mention our dessert parlours.

Sport

The Ricoh Arena, on the outskirts of the city, is home to Premiership Rugby Club Wasps and Coventry City Football Club. The city also has a successful ice hockey team, Coventry Blaze and a semi-professional Rugby League Club, Coventry Bears. Coventry University Students' Union also runs more than 55 sports clubs for students².

Central location

Coventry is situated in the heart of England, just one hour from London and 20 minutes from Birmingham by train³. If you choose to live in our modern, city-centre accommodation, you'll be really close to campus and all the benefits that Coventry city-centre has to offer.

Career prospects

There are many good reasons to study a degree at Coventry University, but one of the most important is to gain access to the graduate jobs market. Our careers support is designed to help you do just that. We also offer support related to your subject to help you to gain an edge.

Courses at Coventry University help you to develop the skills and qualities many employers look for, such as entrepreneurship, good communication, problem-solving and analytical skills, as well as a global outlook. For work experience, our careers specialists can help you to secure a work placement or internship, which can be taken as part of a degree course, a sandwich year or during university holidays*.

Our 'Add+vantage' modules help you to prepare for the transition from study to work. Options include learning a foreign language, entrepreneurship, or enhanced research skills. You could try work experience, join international field trips, gain professional accreditation, or study towards industry qualifications*.

If you strive to create the next Uber, Snapchat or Hype, our International Centre for Transformational Entrepreneurship (ICTE) can offer you entrepreneurial support, with skills development, networking, workshops and events which are all useful if you're thinking of starting a business or becoming self-employed. If you'd like to start a socially-conscious business, our Enterprise HUB supports and develops social enterprises created and run by our staff, students and alumni. We have been awarded the Social Enterprise Mark in recognition of our commitment to sustainable local businesses. If you're looking for work during or after your degree, Coventry University has its own recruitment agency, thefutureworks, which can help you with finding temporary and permanent employment opportunities.

We hope you'll be inspired by some of our successful alumni. Read about how their chosen courses set them on the path to the successful careers that they enjoy now. Your dream career could start right here.

*Please refer to the degree course for specific information relating to your study choice and module availability.

Stephanie Itimi

Stephanie studied Economics and is now a Cyber Intelligence Analyst within the UK Home Office and co-founder of a public speaking agency promoting women of different ethnic origins, Utrr. She says: "The career service at the university was extremely supportive in helping me."

Marco Ng

Marco studied Aviation Management and is now Airport Operations Manager at Heathrow Airport, the busiest airport in Europe and the fifth busiest in the world. He says of his course: "I gained a very broad understanding of the industry, which helped prepare me for the workplace."

Ralph Debbas

Automotive Design graduate, Ralph is now CEO of W Motors, providing high-performance luxury sports cars to Ultra High Net Worth individuals in the Middle East. He is inspired by this Eleanor Roosevelt quote: "The future belongs to those who believe in the beauty of their dreams."

Aisling McLaughlin

Aisling studied Adult Health Nursing after being inspired by her mother, also a nurse, who cared for her terminally ill grandmother. Aisling became Deputy Director for Nursing, NHS England in the West Midlands just 10 years after graduating. She says: "I'm doing the best job in the world."

Student support

At Coventry, we take pride in the fact that the reputation of our student experience is based on a solid foundation of academic and welfare student support.

From our Information Points across campus with friendly, trained staff who can deal with a range of queries on behalf of our academic faculties, to our specialist support areas covering learning, academic writing, IT and maths support, we work hard to make sure we add value to your learning experience.

We aim to help you feel settled at Coventry and to ensure you have as many opportunities as possible to succeed in your studies and achieve your goals. We have a dedicated Student Engagement Centre with a team of trained advisers to help you before you arrive, while you settle in and support you during your studies.

Additional academic support

Our dedicated Centre for Academic Writing (CAW) is on hand to provide guidance on all your writing tasks throughout your degree, including your dissertation and exam papers.

Whatever your degree, if you need any help with mathematics or statistics, our support centre, **sigma**, is open throughout term time and for several weeks during vacations. You can drop in for advice, make appointments online or sign up to courses to develop your skills in statistics, numeracy and the use of SPSS statistical software.

Welfare support

Our Health and Wellbeing team includes welfare officers, counsellors and mental health advisers who provide support for a range of issues, such as health or relationship concerns. Services are confidential and, following an initial assessment, students may be offered one-to-one counselling or referred to specialist external organisations.

Our Disability Support team provides guidance and assistance to disabled students from the point of application through to graduation. We offer support to students with a variety of disabilities including: Specific Learning Difficulty (Dyslexia); Physical and Sensory Disabilities and Aspergers (Autistic Spectrum).

www.coventry.ac.uk/welfare

The Spirituality and Faith Centre is located at the heart of the campus and is a warm, safe environment for all students and staff, whatever your beliefs. Facilities include a multi-faith meeting room, chapel, Muslim prayer rooms (with ablution facilities), lounge, multi-faith library and kitchen. Private appointments can also be made with our multi-faith chaplains.

The Lanchester Library

Open 24 hours a day, 364 days a year the Lanchester Library offers a range of study environments across five floors. There are workspaces for silent and individual study as well as quiet and group areas, and bookable rooms. Incorporating our Disruptive Media Learning Lab, we aim to inspire and challenge our students to think and act differently when studying, offering experimental learning areas such as The Grass and The Hill.

The Library also houses the university's IT Tech Bar along with 1,400 individual study spaces and over 500 computer workstations, as well as a free laptop loan. Wi-Fi is available throughout the building. You will also have access to over 720,000 learning resources at your fingertips from ebooks and e-journals to print and multimedia resources. A team of dedicated academic liaison librarians is available to provide you with specialist help and support. They work in conjunction with course tutors and provide both class teaching and one-to-one appointments. Together with our enquiry services we aim to ensure that you have everything you need to support your study.

Getting to Coventry

Coventry is an easy city to reach thanks to its central location and excellent transport links.

Coventry railway station is just a 10-minute walk from campus and operates regular services on routes including Birmingham, London, Manchester, Leeds and Bristol, as well as to local stations.

The main coach and bus station is right on the doorstep of the campus and serves both local destinations and cities across the UK.

The university is just a 15-minute drive from the M6 and the M69, and less than 20 minutes from the M42 and M40. There is also a student car park on campus that costs just £2 to park all day¹. Birmingham International Airport is a 20-minute journey by road or rail.

If you live locally then you also have the option of walking or cycling to lectures. There are plenty of sheltered bike-locking areas on campus. You can download local cycling maps and plan your journey by visiting www.coventry.gov.uk.

Train/Bus travel times to Coventry ²		
City	Travel time	Frequency
 Birmingham	20/30 mins	Every 10/20 mins
 Oxford	45 mins	Every 60 mins
 London	1 hour	Every 40 mins
 Leicester	1 hour 10 mins	Every 90 mins
 Bristol	2 hours	Every 30 mins
 Manchester	2 hours	Every 20 mins
 Leeds	2 hours 30 mins	Every 60 mins

¹Price correct at time of printing.
²Information provided is the fastest available route.

Students' Union

Coventry University Students' Union (CUSU) is run by students, for students, to help you get the most from your time at university.

Based in TheHub building at the centre of campus, our Students' Union organises a year-round programme of events, from Welcome Festival and our popular Varsity sports tournament to regular club nights and campaigning initiatives.

When you enrol at Coventry University, you will automatically become part of our Students' Union. Providing a range of advice and support in addition to the services offered by the university, our union also takes the role of representing your interests, both at the university and nationally.

With its own student course and service reps, our union feeds students' views on teaching and learning back to the university and its Student Warden scheme helps build positive relationships in the areas where students live.

As a student at Coventry you will have the opportunity to get involved in activities that will help to increase your employability skills. You may also have the opportunity to join Source Media, working on its radio, TV or news platforms. Our employability department will help find you a placement to suit you and our volunteering service will allow you to spend time fundraising or working with local community projects.

Societies and sports clubs

CUSU supports more than 160 student societies and over 55 sport clubs*. Currently, societies include academic, cultural, international, faith, political and campaigning groups alongside a wide range of hobbies and interests. Joining a society is a great way of meeting new people and spending time doing things you enjoy and are passionate about. If you can't find a society you're looking for, you can start one of your own.

Sports

Aside from all the sports clubs you'd expect – football, hockey and rugby for example, you'll find some more unusual ones too, such as taekwondo, mountaineering or snow sports. We want to make sport accessible, so there is a growing number of disability sport clubs where those with a disability can volunteer, train or compete.

See **page 32** for more information about Sport at Coventry University.

Music and performance

The DJ, MC and Producer Society gives local DJ talent from Coventry University opportunities to perform at local music events. The Musical Theatre Society (MTS) is the place for those interested in singing, dancing and acting on stage, with productions you can take part in. Other music clubs let you bond with people who share your musical interests, from windband to rock music.

Cultural and international

Coventry University welcomes students from all over the world. Our Students' Union cultural and international societies aim to provide a social environment with students who share your nationality and promote other cultures. Example societies include Taiwanese, Sri Lankan, Russian, Chinese, Qatari, Portuguese, Nigerian, Indonesian, Croatian, and the East African Society. A full list of nationalities is available on the CUSU website.

Special interest

Remember, you can start your own society based on anything that interests you. If you can find 10 like minded students to join, CUSU will officially recognise your society. Some current special interest societies include Anime and Manga, Book Club, CovWords Magazine, DRC Drone Enthusiasts, Fashion, Gaming, LINKS which works with St John's Ambulance, Illustration, Photo Club and the Vegetarian and Vegan Society. A full list of societies is available on the CUSU website.

Sport Coventry

Whatever your aim, interest or ability, there is something for you at Sport Coventry.

Sport Coventry, a collaboration between Coventry University and Coventry University Students' Union, is designed to support, develop and promote success in all areas of university sport. We provide a range of opportunities and activities aimed at all levels and abilities.

You can choose to get involved at the level that's right for you, from trying something new to representing the university competitively. We have over 55 sports clubs, many of which compete in the British Universities and Colleges Sport (BUCS) leagues and individual competitions. One of the highlights of the student year is our annual Varsity tournament where our teams compete against local rivals from the University of Warwick.

Team Phoenix

Sport Coventry's 'Team Phoenix' programme was established to enhance the sporting experience and performance of our flagship teams. Clubs have the opportunity to apply for extra resources and additional support, from professional expertise to funding. As part of the Team Phoenix programme, we bring in the best coaching talent possible to ensure continuity and long-term success for our clubs. The programme provides a challenging and competitive environment that develops our athlete's abilities, confidence and self-awareness, leading them to success in the sporting arena and beyond.

Sports Scholarship award

If you play sport at a high level, you may also be interested in applying for our Sports Scholarship award. It provides both a cash bursary and tailored support to help you balance the demands of performance sport and life at university. You can find out more by visiting www.coventry.ac.uk/sportsscholarships.

Fitness

Our large, modern fitness suite contains a variety of cardiovascular and resistance machines, free weight equipment and a functional core area to help you stay fit and healthy. Our professionally-qualified fitness team can provide you with a free induction, a personal training plan, and any tips or advice that you may need.

Indoor

You can also take advantage of our indoor sports halls where you can participate in five-a-side football, basketball, badminton, table tennis and more. Playing team sports is a great way to meet new people as well as staying fit and healthy. If you want to join a team and/or play at a recreational level, our 'Be Active' programme supports a number of leagues, games and tournaments*.

Outdoor

Outdoor sport facilities, including several full-sized football, rugby and hockey pitches, an AstroTurf pitch and a cricket strip, are just a short bus journey away at The Place in Westwood Heath. This is where many of our Team Phoenix sides play their home matches against other universities.

High-performance

We also have a brand-new high-performance suite designed to support the physical training needs of athletes across a wide range of sports. This is managed full-time by two UKSCA-accredited coaches. Our on-site physiotherapy clinic can assist students with any sport-related injuries*.

*Fees apply.

www.coventry.ac.uk/sportcoventry

Accommodation

Make the most of your time at university by living near to campus with other students.

Coventry offers a range of accommodation options, purposefully designed to meet your needs. University-owned, managed and partner options are available.

First-year UK and EU* applicants are guaranteed a place in university accommodation if they meet the following criteria:

- Apply by the 15 January 2019 UCAS deadline
- Make Coventry their 'Firm' choice at UCAS
- Submit their online application for accommodation by 16 June 2019

FutureLets

Our accommodation service, FutureLets, takes the stress out of moving away from home by helping you to find a place that suits your needs and your budget.

FutureLets manages accommodation in university-owned properties as well as in halls owned by partner providers and private lettings in Coventry. All FutureLets accommodation is located either on campus or within walking distance of the university and city-centre. Available accommodation includes rooms with en-suite or shared bathroom facilities in catered or self-catered halls, studios and apartments and house shares with up to 12 bedrooms.

Catered accommodation

If you would prefer to live in a hall of residence where meals are provided, the university's Priory Hall provide breakfast and dinner every weekday.

Priory Hall - Priory Hall is our oldest hall, which has been extensively refurbished to a modern and high standard. It is a popular choice due to its campus-central location, social atmosphere and closeness to the city-centre nightlife, eateries and shops. It also boasts unrivalled views of the historic Coventry Cathedral. Residents of Priory Hall have catering provided for them in **TheHub** in the centre of campus, Monday – Friday.

Self-catered accommodation

Providing the peace of mind of living in university-owned accommodation and the independence and communal atmosphere of a flat share, we have a range of halls to choose from.

The Cycle Works - This hall provides a lively community feel, and is centrally located to all the cultural and social activities the city-centre provides. With sports facilities and shops within easy walking distance, The Cycle Works is a great base for your time here at Coventry University.

Singer Hall - Located close to the city-centre and local amenities, Singer Hall is perfectly positioned for student life. Singer Hall is also close to the main campus and library.

Bishopgate - Our latest accommodation, Bishopgate is a state-of-the-art development that has been built with the student experience at the forefront. It features an on-site gym, TV room, private dining room, study rooms and social spaces.

Godiva Place - Opened in 2018, Godiva Place has a modern interior and exterior design. There are a range of rooms available from Cluster en-suite flats to Twudios and studios. These halls feature an open place social space, study areas and cinema room.

Other halls of residence

We partner with a range of private accommodation providers that are close to campus. Visit our website for more information.

Private lettings

FutureLets makes it as easy as possible for students to find private accommodation in and around the city-centre. We work with approved landlords to provide students with the best private accommodation in Coventry.

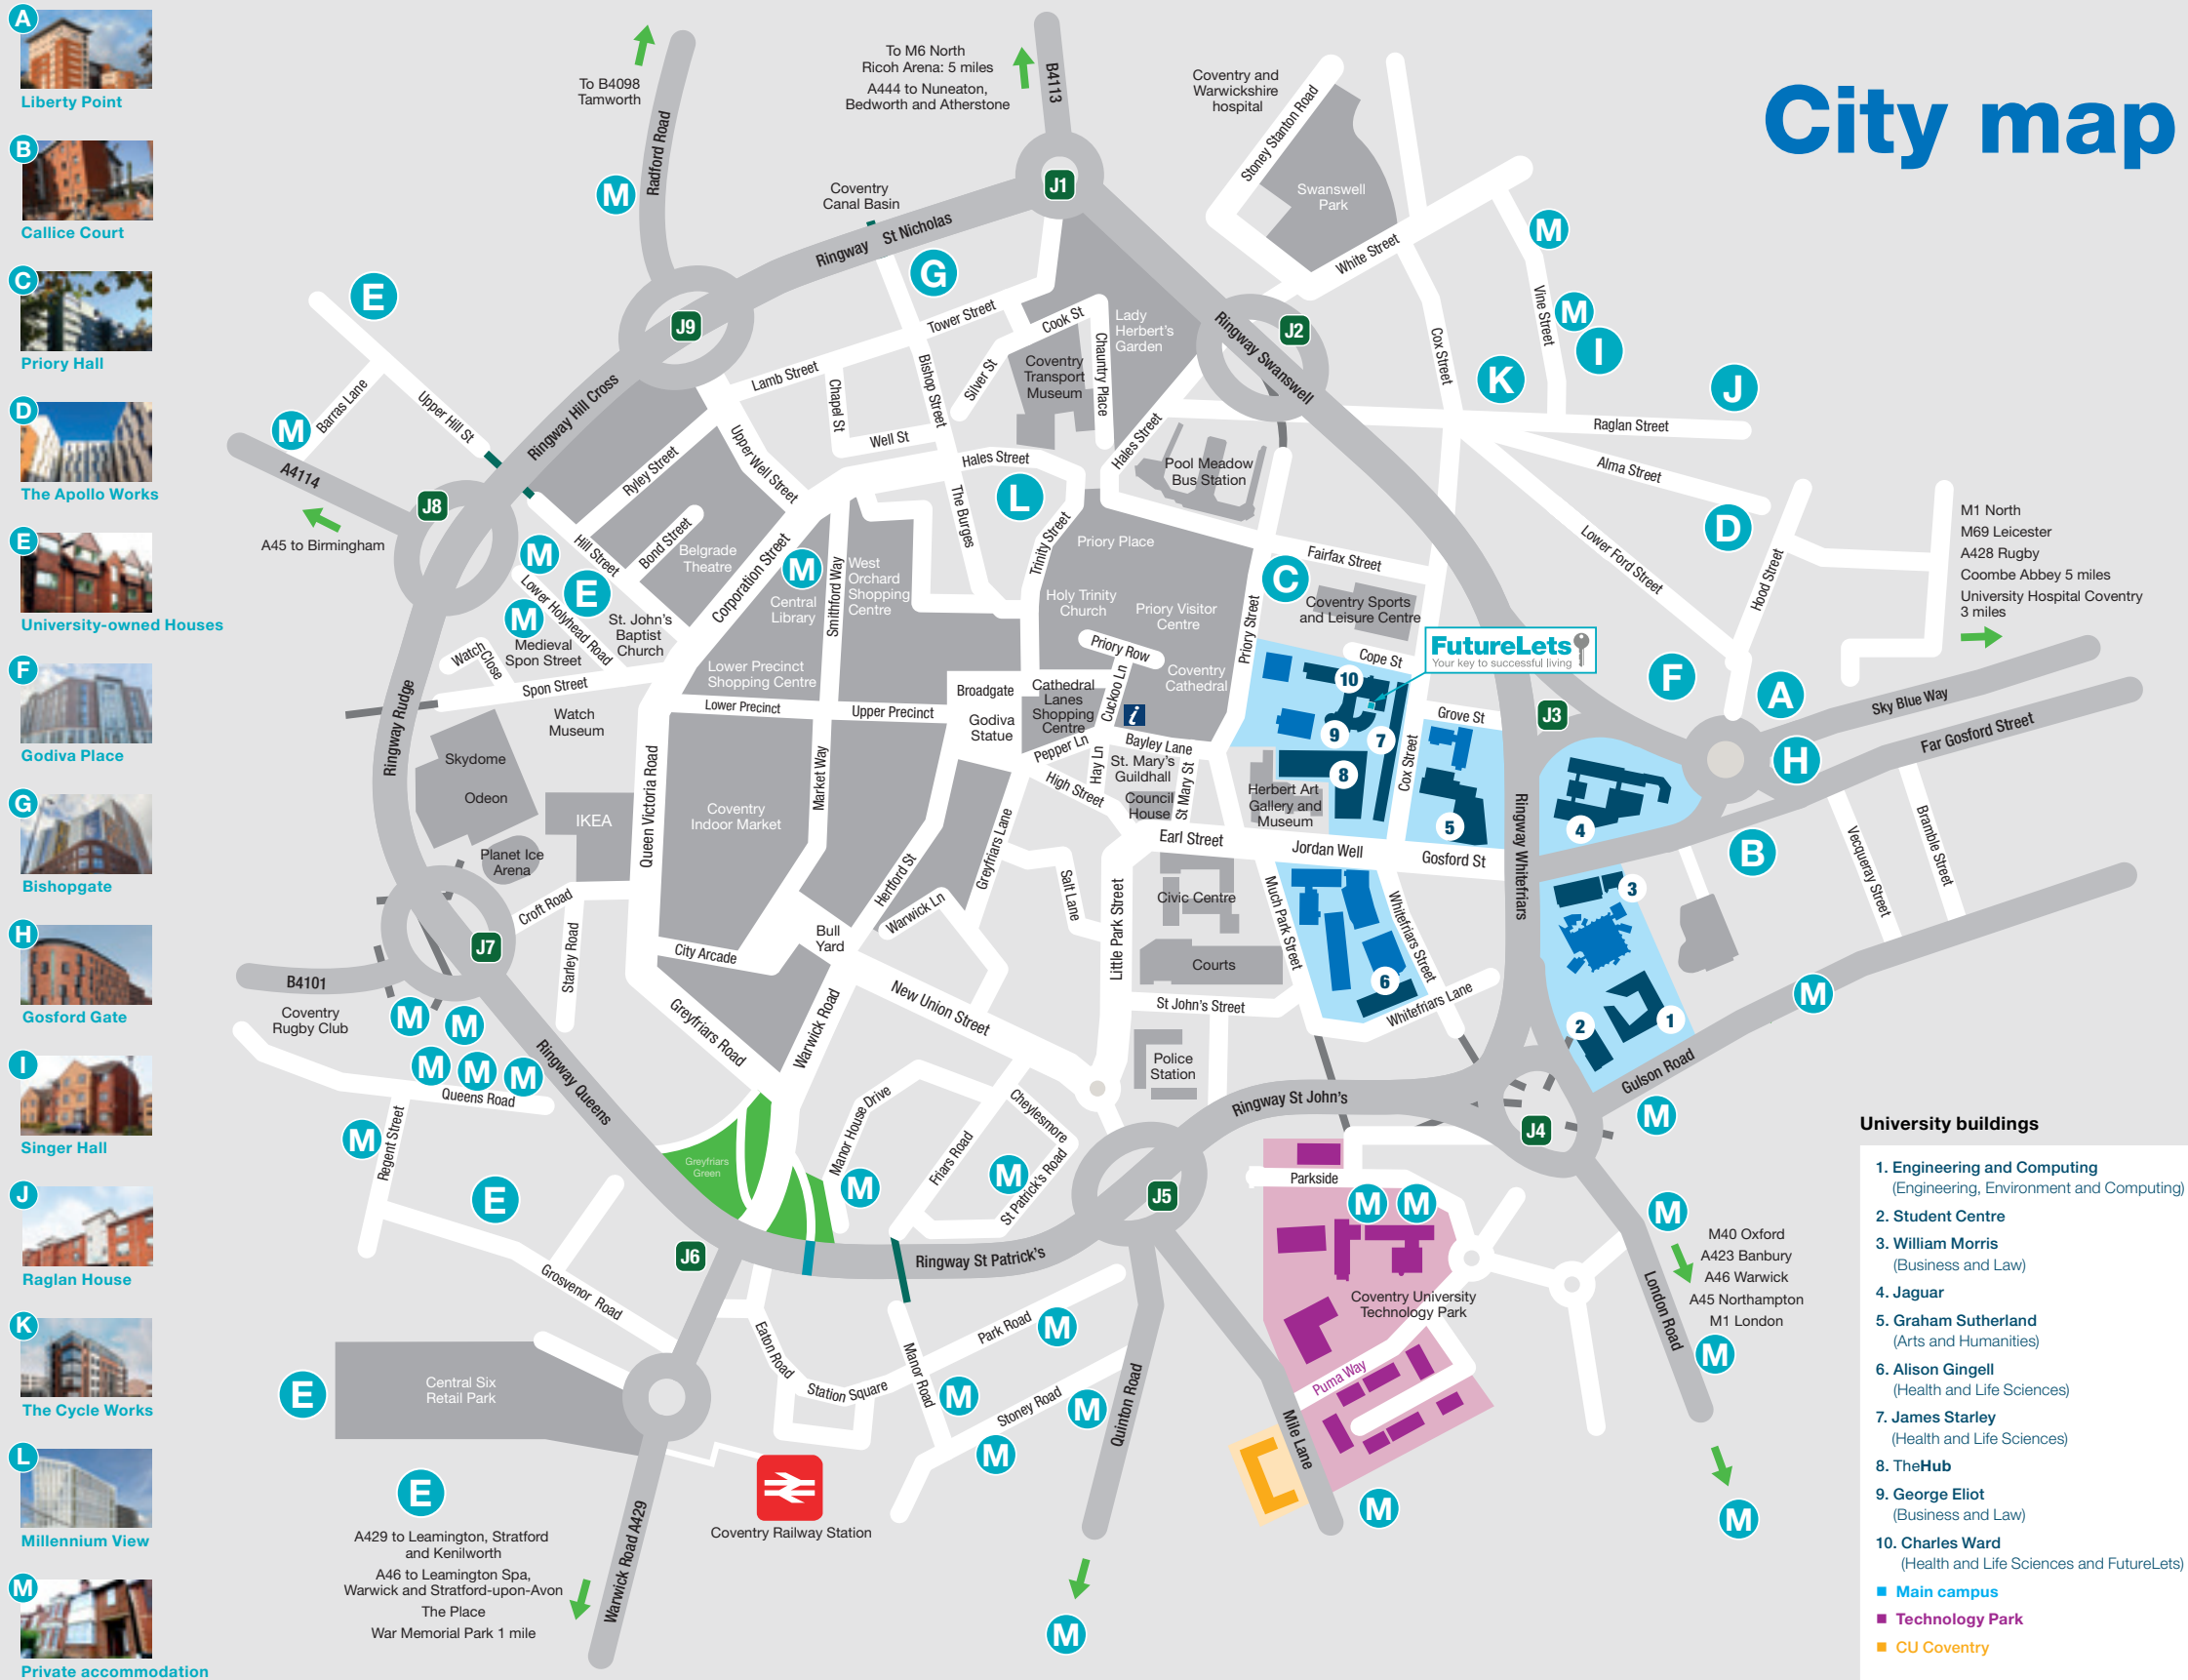

ResLife

This programme is run by FutureLets which offers students in halls the chance to get involved in events, sports tournaments, activities, development workshops and exciting trips to enhance their lifestyle living in halls and the overall student experience.

*EU students should be aware that there may be a change to UK laws following the UK's planned exit from the European Union, this may change their eligibility for guaranteed student accommodation.

International students

Welcoming international students

Coventry University is a truly global university. We currently have more than 11,000 international students from over 130 different countries studying with us in the UK and thousands more studying our degrees in partner institutions around the world.

We offer a range of support and activities to help international students to settle in quickly, including an airport 'meet and greet' service and dedicated familiarisation events during enrolment.

International Office team

Many members of our International Office have lived and studied overseas themselves. So they can help you better because they understand how differences in language, culture and education systems affect anyone who wants to enjoy international study.

Support starts from the moment you consider studying with us. We can answer questions on a range of subjects, including visas, immigration, finances, employment regulations and culture. We will stay in contact with you throughout the application process, sending updates to make sure that you have all the information you need to start your course. And we have local offices in many countries ready to talk to you in your own language and at a time that works best for you.

Top-up courses

If you have already successfully completed years 1 and 2 of an equivalent course (or have successfully completed a foundation or HND degree), then a top-up course is a great way to increase your employability and secure a full qualification at degree level. These courses are studied full-time over one year and are offered at both Coventry University and Coventry University London.

For more information about top-up courses, see **page 134**.

Scholarships

Coventry University offers a range of scholarships to help talented students with the financial costs of their education. You may be eligible for a scholarship on the basis of your academic achievements, the course you want to study, or the country you are from. Many scholarships will help you meet the financial costs of your tuition fees when you study with us.

Be sure to check your eligibility for each scholarship by visiting www.coventry.ac.uk/internationalscholarship.

How to apply

Applying to Coventry University is a quick and easy process. You can apply online by following the link from any course page on our website. Alternatively, you can download an application form and return it by email. Before you apply, you need to make sure that you meet the necessary entry requirements for your chosen course. Specific entry requirements are listed on each course page at our website.

You can find out more about how to apply by visiting www.coventry.ac.uk/international-apply.

You can also find more information about entry requirements relating to your country by visiting www.coventry.ac.uk/regional.

IELTS

You are likely to need a minimum IELTS score of 6.0, or an equivalent English language qualification, for entry onto our undergraduate courses. To help you achieve this, we offer Pre-session English courses*. Courses range in length from five to 30 weeks, depending on your existing level of English proficiency.

*Fees apply.

Coventry choices

In addition to our Coventry University offer, we provide a large number of alternatives as part of the wider Coventry University Group. For instance you could study in the heart of the City of London at Coventry University London. Alternatively, our CU options could provide you with the opportunity to study towards a Coventry University award in a more flexible and affordable manner at any of three locations in Coventry, Scarborough or London.

Founded by entrepreneurs and industrialists as the Coventry School of Design in 1843, Coventry University is a dynamic and outward-looking institution with a tradition of teaching excellence, impactful research and bold international partnerships. With a half-billion-pound investment in the Coventry city campus, the university is continually evolving. Coventry University offers over 140 undergraduate courses in a wide variety of subjects, and is recognised internationally for its expertise in health, peacebuilding, disaster management and more. www.coventry.ac.uk

Located on the outskirts of the Coventry University campus in the heart of the city, you will find everything you would expect from a vibrant ultra-modern city. We've invested heavily in a new £33m campus exclusively for CU Coventry students, which opened in March 2019. This modern and inspiring learning space accommodates up to 3,000 students, and features teaching rooms, IT suites, engineering and science labs, a moot court and a café, as well as extensive breakout areas for social learning to make teaching more flexible. www.coventry.ac.uk/cuc

Coventry University London has over 1,800 students from more than 80 countries. The emphasis is on gaining work-related experience, from business simulations to placements. Located in central London, just minutes away from the Bank of England, the London Stock Exchange, and the offices of numerous world-leading organisations; specialist facilities include a Trading Floor equipped with Bloomberg Terminals, a Standard and Poor's computer suite, an Enterprise Hub, and a fashion studio. www.coventry.ac.uk/london

CU Scarborough is our campus on the Yorkshire coast. In Scarborough, you'll find everything you'd expect from a vibrant town by the sea, plus a whole lot more. Scarborough is a remarkably beautiful place to study; there are the beaches, the North Yorkshire Moors and even a medieval castle guarding the town. CU Scarborough students have access to all the facilities needed to support their studies and student life, all located in a new purpose built state-of-the-art £14m campus. To make things even better, nearly everything is within walking distance. www.coventry.ac.uk/cus

Currently only available at a postgraduate level, Coventry University Online fits around your own schedule, and can be studied from anywhere in the world. Provided through the FutureLearn virtual learning environment, students have full online access to our teaching, tutor support, and all of the study materials they need. All of your lectures and assessments take place online too, so there is no need to attend one of our campuses, and upon successfully completing the course, you'll graduate with the same degree as an on-campus student. www.coventry.ac.uk/online

Based in Dagenham and only 14 miles from central London, our campus is well located. The closest Tube Station is Dagenham Heathway. Our campus borders Eastbrookend Country Park, a beautiful expanse of greenery and lakes. Also, nearby is the Wantz Boating Lake, sports grounds and supermarkets. Being a student and living this close to the City of London means you'll be able to soak up all the capital has to offer, from international cuisine to cultural activities, allowing you to grow on a personal level as well as academically. www.coventry.ac.uk/cul

Partner institutions

You can also study at one of our many partner institutions across the world. To find a full list of our partner institutions at www.coventry.ac.uk/globalpartners.

Why Accounting and Finance at Coventry?

From providing vital financial performance information to businesses as an accountant, to buying and selling securities as a stockbroker, studying an Accounting and Finance degree can open up a wealth of career opportunities. At Coventry, our focus is on helping you to unlock these opportunities with courses that give you the professional skills and knowledge required to succeed, with a focus on developing your financial acumen, commercial awareness, and decision-making skills.

Global opportunities

You'll have the opportunity to enhance your degree with our international experiences (fees may apply). Previous trips have included International Tax Week in the Netherlands, where students developed their global business skills, and an exchange programme to Hangzhou in China.

Specialist facilities

Accounting and Finance students have access to our state-of-the-art Trading Floor, incorporating 42 dual-screen Bloomberg terminals and offers a hands-on experience of trading stocks and shares using industry standard tools, such as Thomson Reuters Eikon.

Possible careers

For graduates of a Finance degree, possible careers include positions in financial advice firms, investment funds and commercial banking, while for Accounting graduates, there is the opportunity to become a Chartered Accountant (additional fees, study, memberships and/or qualifications may apply).

Further information

Please visit our website for detailed course information including subject specific entry requirements and current course fees. See **page 144** for more information.

Why Economics at Coventry?

Economic policies influence almost every aspect of modern society, from the taxes we pay and the price of anything we buy to the stability of our government and the demand for products and services. Economics affects us all – whether it is as students, parents, consumers, workers, politicians or investors.

Coventry University's Economics courses were ranked 6th in the UK (Guardian University Guide 2019), and our focus is on contemporary economic debate and real-world applications of Economics.

Business Economics will help you to develop your application of economic principles to business oriented decision making, while touching on current issues such as the regulation of business to ensure competition.

By studying Economics you will have the opportunity to develop an understanding of key economic concepts, while developing a range of transferable skills valued by employers.

Studying Financial Economics will seek to deepen your understanding of the role financial systems and markets play in the modern world, both in the UK and within an international context.

Global opportunities

Through our links with institutions across Europe, Asia and America, you will have the opportunity to enhance your degree with international experiences (fees may apply). Previous students have spent time at universities in Hangzhou, China, and California, USA.

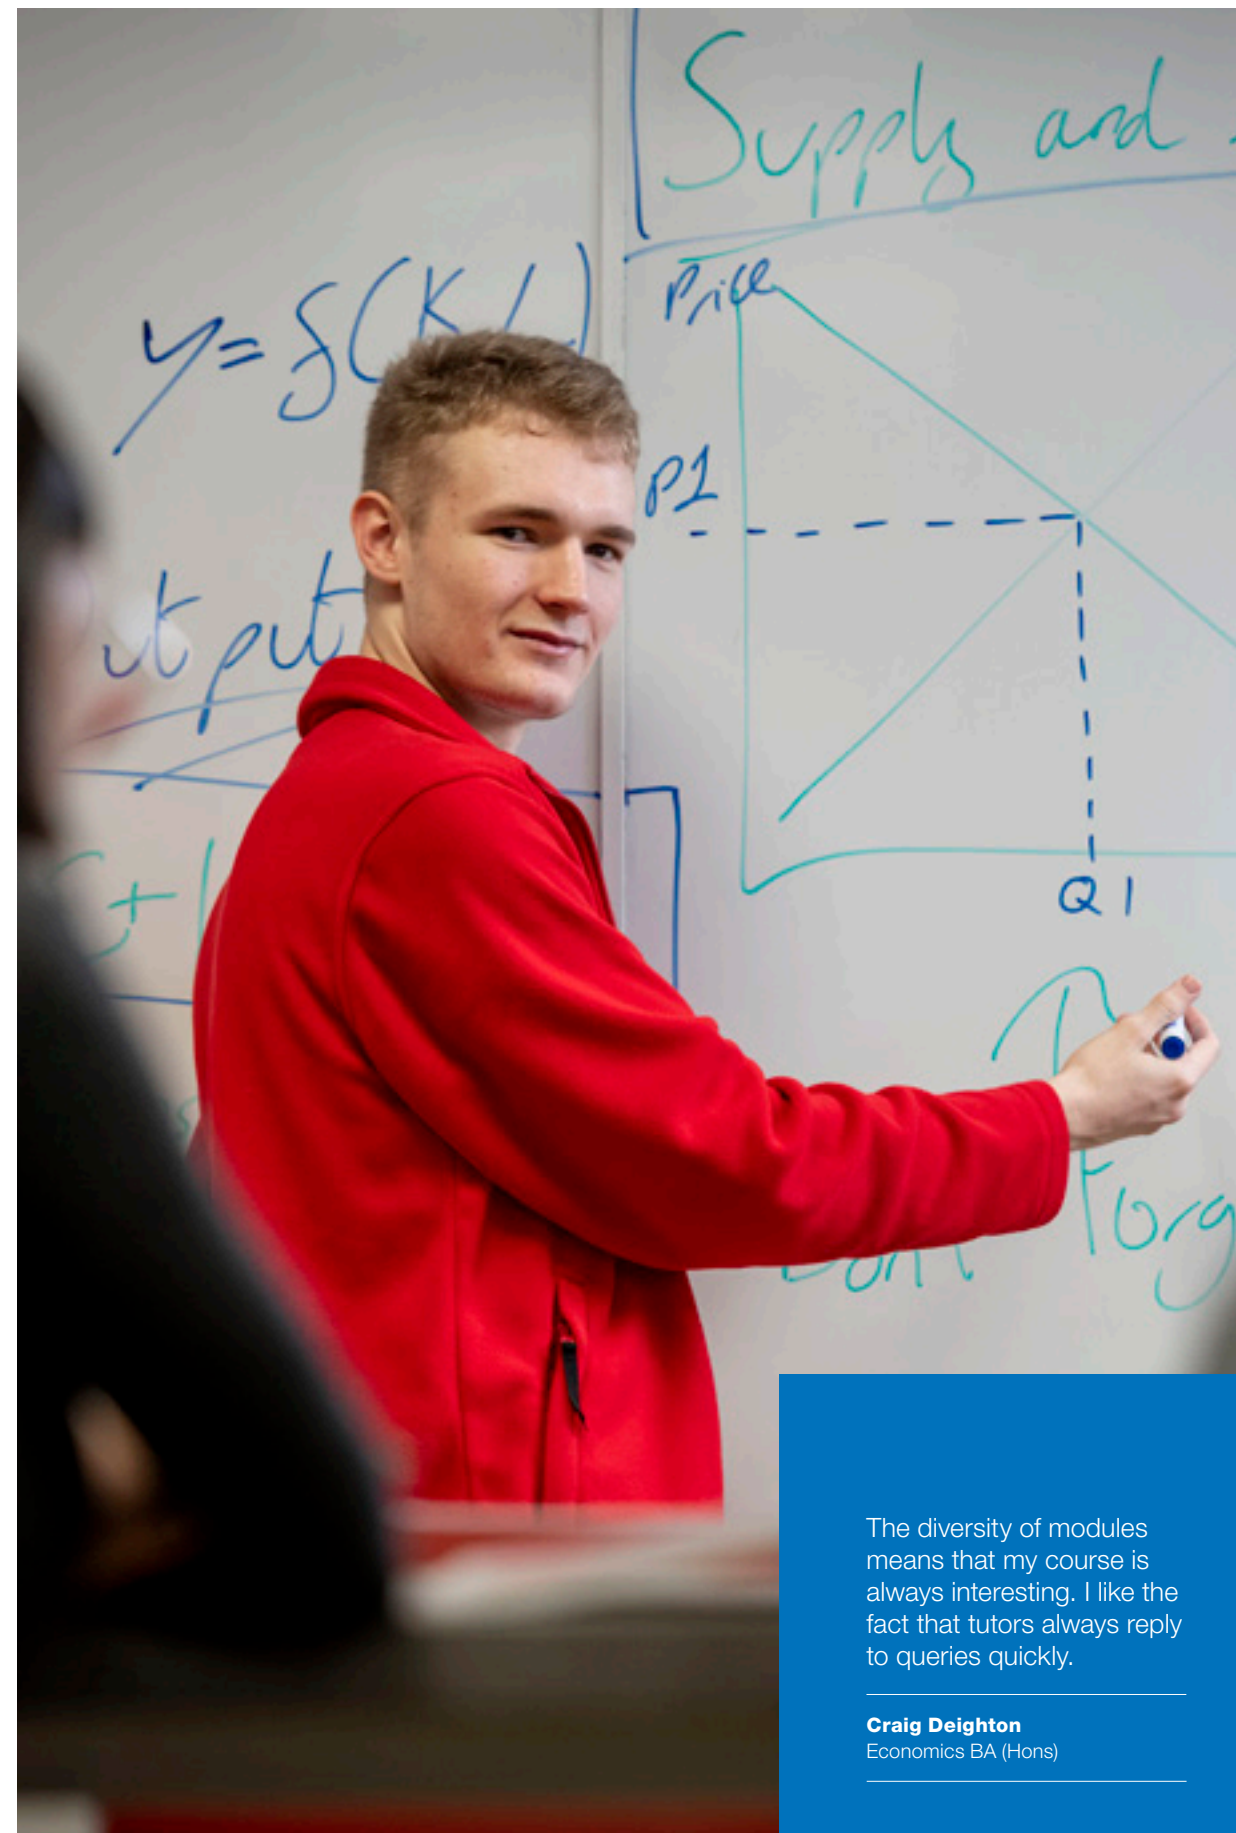

Possible careers

As well as offering degrees which provide highly sought after economic analysis skills, our Economics courses also give extensive exposure to how businesses and other organisations operate in different markets and contexts. Economics graduates have recently entered careers including derivative traders, swaps analysts and marketing managers, with a range of prestigious employers including the Bank of England, the Government Economic Service, Vodafone and HSBC.

Why Architecture, Automotive, Interior, and Product Design at Coventry?

Our subjects are committed to blending the creative and artistic with a strong technical underpinning. You'll explore, create and develop the skills to design innovative structures and products that deliver a rich experience to the user. Coventry is ranked 9th in the UK for Architecture, and 8th in the UK for Design and Crafts (Guardian University Guide 2019).

Our Architecture course blends technical and artistic skills in designing new spaces and buildings around our everyday lives and needs, where you'll be challenged intellectually and creatively. This course adopts a hands-on approach to learning with a focus on imagination, communication and context.

Automotive and Transport Design is an award-winning course with a prestigious history of successful alumni, whilst Interior Architecture and Design provides you with the opportunity to develop your technical knowledge and understanding of volume and space, light, function and use.

Our Product Design courses seek to equip you with a broad range of skills, enabling you to create all types of products – from wearable technology to sports footwear and luxury aircraft seating.

Accreditations and memberships which may apply:

Specialist facilities

Our long-established and highly regarded degrees seek to equip you with a broad range of skills from drawing and sketching, to visually communicating and presenting design concepts. Our students have access to brilliant facilities, including a wind tunnel, robotic milling, laser cutting, rapid prototyping, 3D printing and excellent clay modelling facilities.

Possible careers

Our Automotive and Transport Design students have helped design many of the vehicles in circulation today for employers ranging from Aston Martin, through to Jaguar Land Rover, VW and Volvo. Our designers have gone on to work for companies including Imagination, GMP Design, Furnish Interior Design, India Jane, Creation Shopfitters and HÄLLNING.

Employability support

Our annual end-of-year festivals, which are open to the public and invited guests from industry, give a valuable platform to showcase your work and potentially launch your career. Our students also exhibit their work externally in London at New Designers allowing them to showcase to potential employers.

Further information

Please visit our website for detailed course information including subject specific entry requirements and current course fees. See **page 144** for more information.

I chose Coventry University because of its integrated placements. I went to Germany for 10 months and it was an amazing opportunity.

Why Art and Design at Coventry?

We'll support your creative ambitions and you'll have opportunities to share and develop ideas with professionals in your field of work.

Our staff are creative practitioners within the fields of Illustration, Animation, Contemporary Art, Design and Music. Their highly-acclaimed work includes the Guardian award-winning online comic series Dawn of the Unread, creative projects for the Cultural Olympiad London 2012, exhibitions at Bangkok Cultural Arts and Cultural Centre as well as other exhibitions and performances of work at galleries such as the MAC, Aspex, BMAG, the Herbert, the Ethnographic Museum, Krakow and the ICA.

It's an exciting time to study the arts at Coventry. Our city has been named as the UK City of Culture 2021, which marks the beginning of an incredible few years of culture and celebration. Coventry University students, on these courses, will have the opportunity to be involved in this work as part of our cultural strategy.

Our Art and Design Foundation Diploma aims to enable you to explore and experiment across a wide range of creative disciplines. A Foundation Diploma is a one-year full-time preparatory experience to prepare you for studio-based, undergraduate Higher Education programmes.

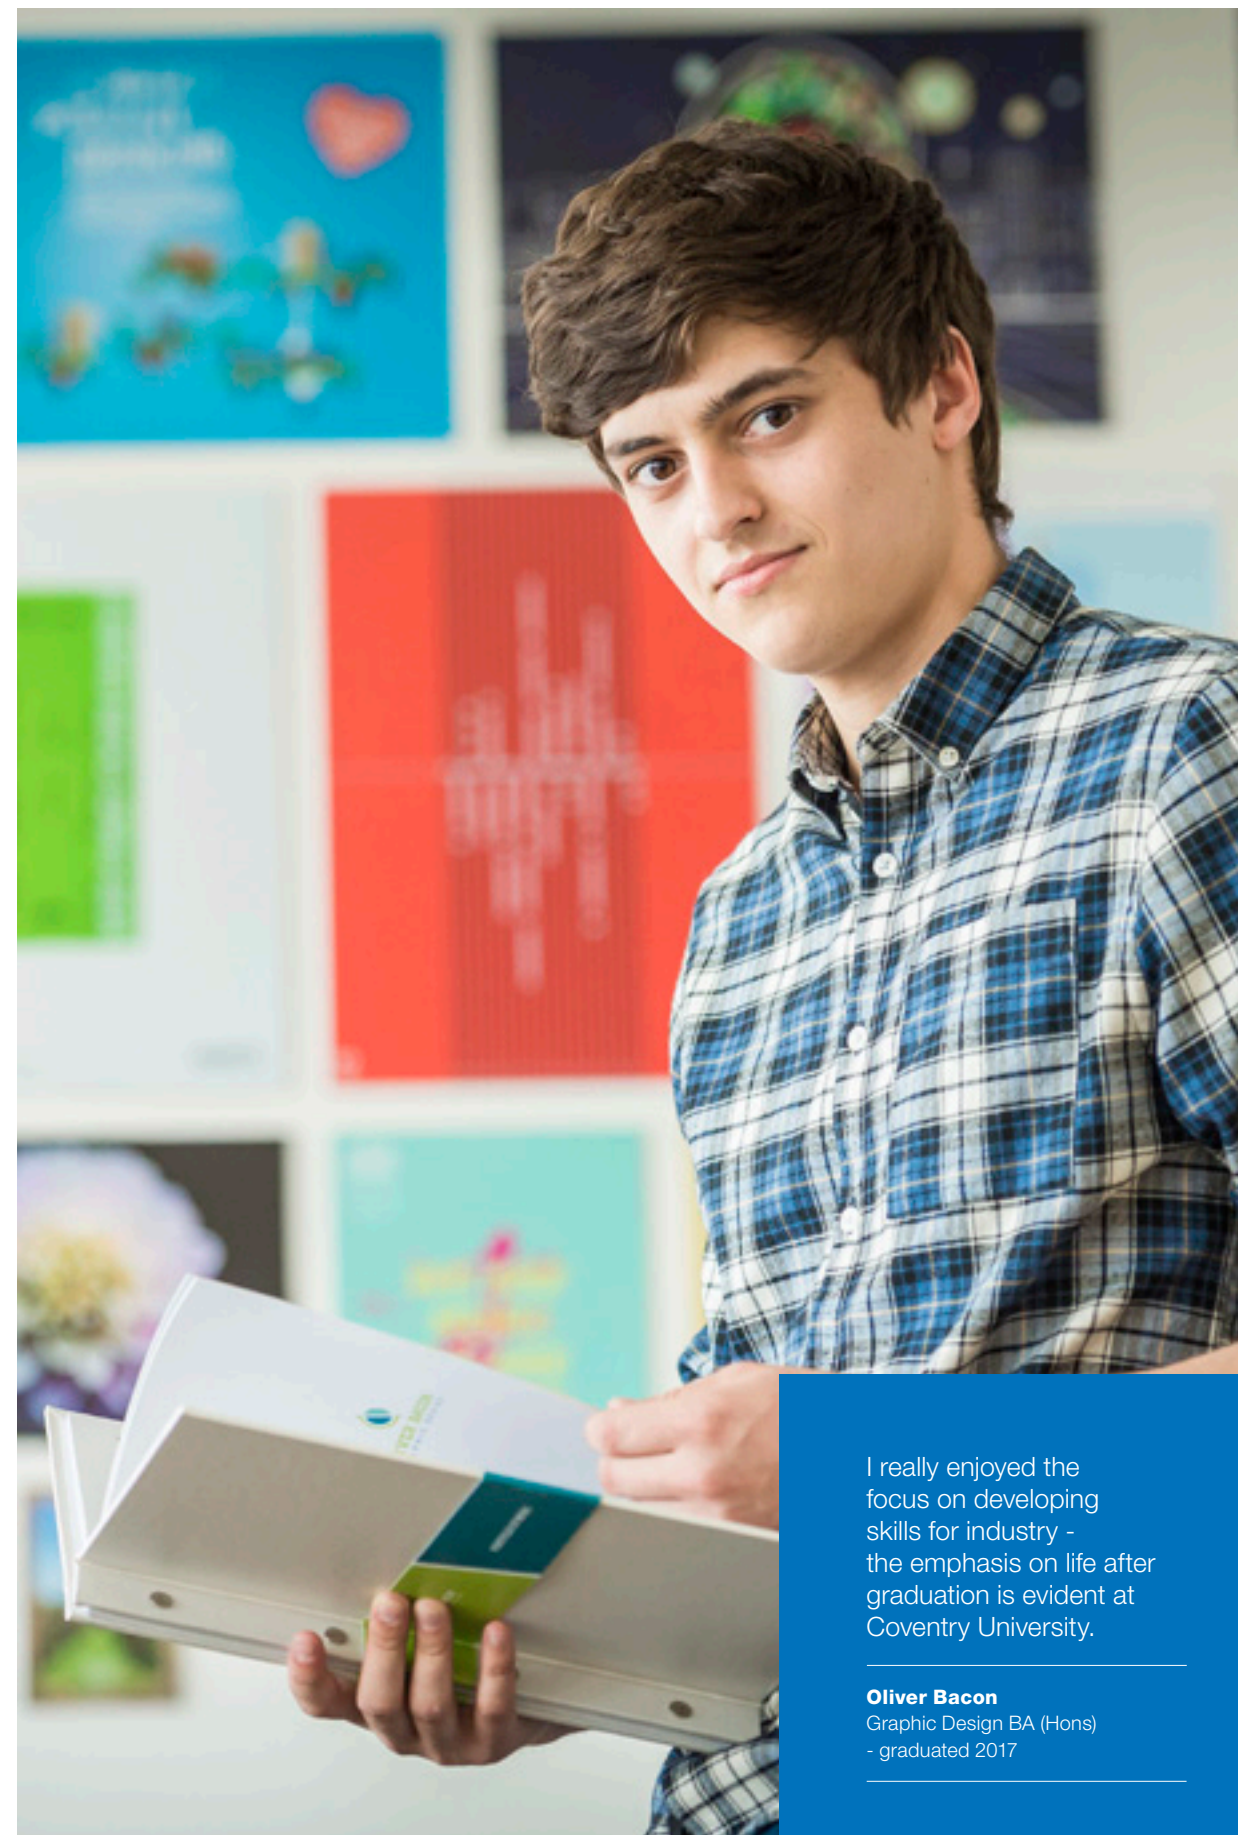

Our practice-based Fine Art course will challenge and inspire you, developing the creative, technical, critical, reflective and enterprising skills to help you forge a successful and sustainable career in contemporary art.

Based firmly on studio experimentation and practice, our Fine Art and Illustration course utilises the synergy and cross over potential of these two disciplines.

Developed in conjunction with games industry employers like Radiant Worlds, our exciting Games Art course is designed to help equip you with the distinctive skillset required to be a successful games artist – integrating art school training with games technology know-how and familiarity.

While studying our Graphic Design course you'll be challenged to come up with creative solutions to engage, instruct and entertain all types of audiences, depending on both the business and the brief, expertly adapting your designs to suit a full range of print and multimedia platforms.

Continued overpage

I really enjoyed the focus on developing skills for industry - the emphasis on life after graduation is evident at Coventry University.

Oliver Bacon
Graphic Design BA (Hons)
- graduated 2017

Art and Design (continued)

Our ambitious Illustration and Animation course will help to prepare you for the challenges of a globally-competitive world. As visual platforms only continue to dominate the media, there is a growing demand for artists to be able to interpret and capture our environment in newly eye-catching and imaginative ways.

Harnessing your creative skills and turning them in to exciting career prospects is our aim on the Illustration and Graphics course. Supported by industry-standard software, a broad range of workshops and dedicated studio space, this exciting course aims to help prepare you to work in the growing contemporary fields of Illustration, Graphic Design, Animation and Creative Media.

Global opportunities

Over the past few years we've offered exciting international study placement opportunities in the School of Art and Design at institutions in Sweden, Germany, Spain and Finland. Our students have also gone on study trips to Berlin, Venice and Paris.

Possible careers

Graduates have gone on to work for a number of well-known companies including Image+, the Royal Shakespeare Company, Rocksteady Studios, Marvel Studios, Müller Dairy, McDonald's, and Saatchi and Saatchi. Many of our alumni pursue careers as exhibiting artists or become curators at museums and art galleries.

Some of our graduates have progressed to postgraduate study here on our suite of MA courses, while many others have attended a range of institutions including the Royal College of Art.

Employability support

We celebrate our students' creativity and craftsmanship at our annual end of year festivals. Open to the public and guests from the creative industries, this gives you a valuable platform to showcase your work and potentially launch your career.

Further information

Please visit our website for detailed course information including subject specific entry requirements and current course fees. See **page 144** for more information.

My course was perfect for experimenting with new techniques and offered a variety of workshops. There were also field trips to well-known galleries in Europe too.

Why Fashion and International Fashion Business at Coventry?

Fashion is a fast-paced, evolving dynamic industry that's fuelled by society, technological advances and future markets.

Coventry University is ranked the 9th best in the country for Fashion and Textiles (Guardian University Guide 2019). Our students are award-winning too; successes include Ren Wong being crowned Young Designer of The Year 2016 at the Clothes Show Live and Natasha Smith winning Emerging Designer of the Year at The Midlands Fashion Awards 2017.

Our Fashion courses focus on design, trends and market influence, aiming to give an understanding of the global nature of fashion design. We place a strong emphasis on employability throughout our courses to help to equip you with the skills you need to have a successful career in the fashion world.

Our International Fashion Business students work alongside our Fashion students developing concepts on retail spaces, branding and visual merchandising. Our students look to futureproof and lead the fashion and textile industry by addressing global issues like sustainability, fair trade and other ethical issues.

Global opportunities

Previous students have attended Berlin Fashion Week and Premiere Vision (the largest European fashion, accessory and textile trade show) in Paris for inspiration and to gain an insight into the scale of the industry they're entering. Former students have also travelled to London to visit exhibitions and retail environments.

Possible careers

Recent graduates from these courses are employed in a range of professional environments and companies including Kelly Hoppen, Belle International and Fresh Ego Kids, Sainsbury's Tu, Asda George, Annie Greenabelle for Topshop, Beyond Creative, Claire's Accessories, ASOS, New Look, Primark and United Clothing. Some of our graduates have gone on to start their own businesses or become freelance photographers, stylists or make-up artists.

Employability support

Past graduates have gone on to become highly successful entrepreneurial designers as well as working for leading national brands. Our Fashion courses foster a collaborative approach to learning and you'll work closely with other students recreating industry live projects. Our students have the chance to exhibit externally at highly regarded London shows like London Graduate Fashion Week and New Designers.

Further information

Please visit our website for detailed course information including subject specific entry requirements and current course fees. See **page 144** for more information.

Winning Young Designer of the Year 2016 at the Clothes Show Live was a fantastic feeling and a great beginning for my career that will motivate me to do better and better.

Why Business and Management at Coventry?

Businesses need brilliant minds. With a track record for business education that spans more than 50 years, our courses provide you with a great opportunity to prepare for the real world by giving you the chance to learn about a variety of business disciplines. Whether you're interested in management, operations, logistics, or entrepreneurship, we can help you develop your business acumen and international outlook.

Our Business Administration course reflects business thought and practice with a focus, where appropriate, on the application of theory to real business issues. Our aim is to provide you with a business degree that equips you for careers in local, national or international markets.

A business is only ever as good as its people, and all businesses need good people. Our Business and Human Resource Management course is fully accredited by the Chartered Institute of Personnel and Development, and has a focus on practice-led learning, giving you the opportunity to develop a solid understanding of people management alongside other key business functions.

Do you see yourself as a future business leader, keen to understand how businesses solve problems and tackle risks? If so, our Business Management course provides you with the opportunity to develop a grounding in business management theory, skills, tools and techniques, before specialising with one of our pathways in supply chain management, leadership, or global practice. All of these pathways include modules accredited by the Association for Project Management (APM) and the Chartered Institute of Purchasing and Supply (CIPS).

Continued overpage

One of the many things that attracted me to my course was the accreditations that it came with, along with the university's facilities.

James Boon
Business Management BA (Hons)

Business and Management (continued)

Designed with a specific focus on business in a European context, our European Business Management course gives you the opportunity to gain experience of doing business in a variety of European countries.

Year one is spent studying with a partner institution in either Finland, Germany or Spain while year two is spent in Belgium, with the final year being studied in Coventry. There is also the opportunity to apply to enter the course directly in the final year - please see the course web page for full details.

Aimed at students with a keen interest in creating their own entrepreneurial venture or project alongside academic study, our Enterprise and Entrepreneurship course has creativity at its heart, and offers you the opportunity to conduct in-depth exploration of your particular interests through coursework and a final year research project.

International businesses now touch the lives of almost everyone across the globe; it is therefore important for anyone working in business to have a strong cross-cultural understanding. Our International Business Management course aims to develop knowledge and practical skills regarding the international business environment, including the cultural aspect of how to conduct business around the world.

Global opportunities

You have the opportunity to enhance your personal development and employability prospects with our international experience opportunities (fees may apply). Previous field trips have included Cape Town, Doha, Prague, Miami and Cuba, while students have also engaged in Online International Learning (OIL) projects with partners across Europe, Asia and the Middle East, including DFDS Logistics, a Swedish logistics firm.

Specialist facilities

Our Business students have access to our new Business Simulation Suite, allowing students to engage in real-life simulations that replicate modern business environments. You could be tackling decision making problems in our Strategy Lab, or pitching your ideas in our Boardroom Simulator – both designed to help smooth your transition to the real world of business.

Possible careers

There are a wide range of possible careers available for Business and Management graduates, with graduates having an excellent foundation to move into a variety of roles, from management and HR, to advertising and marketing, and to work for companies in a wealth of different sectors.

Further information

Please visit our website for detailed course information including subject specific entry requirements and current course fees. See **page 144** for more information.

The course is intellectually stimulating and has made me work-ready. I definitely wouldn't have had the employment opportunities without it.

Courses	A-level	BTEC	GCSE
Law LLB (Hons) UCAS: M100 / Int: FBLU023 www.coventry.ac.uk/ug/M100	BBB	DDM	Minimum five graded 9-4 including English and Maths
Duration: 3 years full-time or 4 years sandwich. Int denotes International code.	Related courses: Criminology and Law - See page 126		

Why Law at Coventry?

Studying Law can sharpen the mind, build an analytical skillset and develop problem-solving abilities - qualities that are not just valued in the legal field, but in business too. We've been teaching law for over 50 years and by studying a Law degree with us, you will have the opportunity to benefit from this wealth of experience.

Our Law LLB (Hons) course gives you the opportunity to gain the foundations of legal knowledge in years one and two, before being able to specialise in a specific area of Law through our final year pathways: Business Law, Trade and Finance Law, International Law, Criminal Law and Justice, and Social Justice. We also offer a final year pathway that allows a broader approach to legal study. This means our students have the flexibility to gain a crucial grounding in Law before deciding to specialise in areas that interest them.

We are also proud to currently be working with a leading legal practice, in collaboration with our Coventry Law Centre Legal Clinic. This service enables our current Law students to gain valuable experience working alongside practising lawyers, from a leading law firm's pro bono department, to offer free legal advice to people from the local community.

Global opportunities

Coventry Law School, as a member of the International Association of Law Schools, is proud to have an international outlook, offering many global opportunities for students to enhance their learning experience (fees may apply). Previously these have included Online International Learning (OIL) projects, which have seen students work collaboratively with peers in our partners institutions, and field trips which have either been related to a module or offered to all Law students. Recent field trips have included Geneva, for a model UN, Chongqing in China and Stellenbosch in South Africa.

Specialist facilities

Located in the Law School's George Eliot building, our mock courtroom, or Moot Room, provides students with the chance to practise their legal skills in a realistic environment. You could have teaching sessions in the Moot Room, as well as the opportunity to get involved in our annual mooting competition, complete with gowns and wigs.

Possible careers

Law graduates can pursue a variety of careers, including becoming a barrister, practicing lawyer, solicitor or teacher. Some of our recent graduates have gone on to work for PwC, the Crown Prosecution Service and a variety of international law firms.

Further information

Please visit our website for detailed course information including subject specific entry requirements and current course fees. See **page 144** for more information.

My lecturers have really useful 'surgery' hours where they are always ready to help, answering any queries I might have.

Why Marketing at Coventry?

Marketing plays an enormous part in our every day lives – in fact, it is present in almost every exchange of goods and services. This is true whether you are buying a new pair of jeans, having your hair cut, or discovering the best coffee in town.

Our Marketing courses aim to provide you with the opportunity to develop specialist knowledge and expertise in different areas of business and marketing. They will allow you to choose a particular strand of marketing work, ranging from the ability to manage the whole marketing process to focusing on more specific parts of marketing, such as advertising, digital marketing or market research.

Global opportunities

There is also the ability to enhance your degree with international opportunities (fees may apply). Recent students have worked with peers in Malaysia, Singapore and the Netherlands, while others have visited Belgium and Dubai to take part in marketing activities in international teams.

Specialist facilities

Designed to be used by our Marketing students, our DigiComm Lab is equipped with industry-standard software and devices. Here, you can get to grips with the Adobe suite, Behance and Wordpress, and be taught in a collaborative environment designed to replicate working in a real-life marketing or advertising agency.

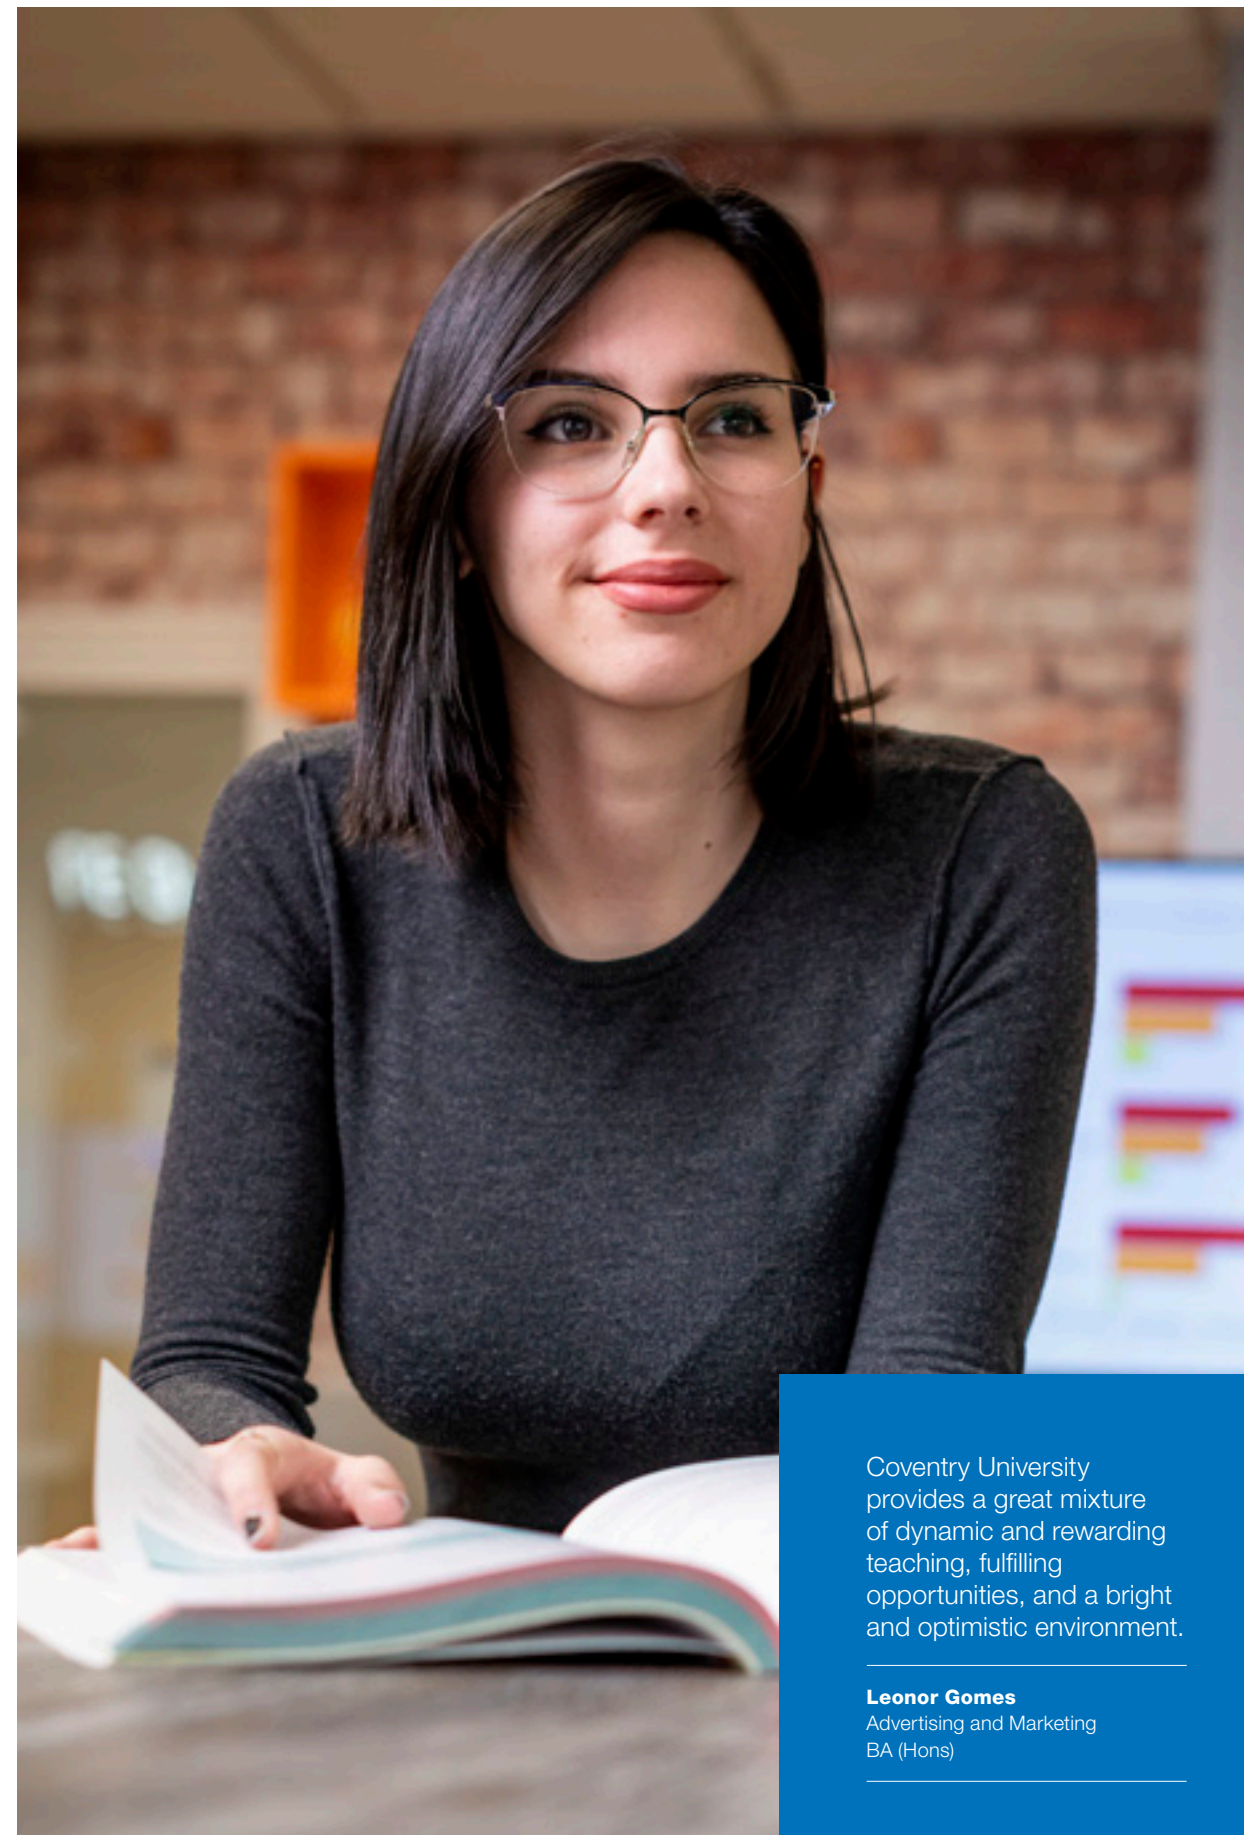

Possible careers

As a successful graduate from one of our Marketing courses, you should be well equipped to take up a variety of roles within the sector, such as marketing manager, copywriter or social media manager. Our graduates have gone on to have successful careers in a variety of organisations including Nike, Microsoft, Goldman Sachs and L'Oreal.

Sport and Event Management

Courses	A-level	BTEC	GCSE
Event Management BA (Hons) ^{1,2,3} UCAS: N821 / Int: FBLU015 www.coventry.ac.uk/ug/N821	BBB- BBC	DMM	Minimum five graded 9-4 including English and Maths
Sport Management BA (Hons) ^{2,3} UCAS: N285 / Int: FBLU012 www.coventry.ac.uk/ug/N285	BBB- BBC	DMM	Minimum five graded 9-4 including English and Maths

Duration: 3 years full-time or 4 years sandwich. Int denotes International code.

Why Sport and Event Management at Coventry?

Coventry is a great place to study either Event Management or Sport Management - not only is it the UK's European City of Sport for 2019, it has also been named the UK City of Culture 2021, with an extensive programme of large scale events planned.

It's not only the city receiving accolades; our courses are too, with both Event Management and Sport Management, as part of the Hospitality, Event Management and Tourism cluster, being ranked 4th in the UK (Guardian University Guide 2019).

Our Event Management course is designed to help you for the fast-paced and exciting events industry, with a strong focus on solving real-world working problems. Alongside combining the study of events with management theory, you will have the opportunity to develop your knowledge and skills relating to project management, a key skillset for graduates looking to build careers in this sector.

Our Sport Management course aims to teach you about management in the sports sector, offering opportunities to gain practical experiences, learn from practitioners, and grow your own professional network. We are particularly proud of our many links with industry which can provide for various work experience opportunities, application of theories and guest lectures.

Global opportunities

You will have the opportunity to enhance your degree through a variety of international experiences (fees may apply). These can range from international field trips, collaborative study activities with students based overseas or studying at another institution for a year. Examples of past visits and student project work include Seville, Berlin, Amsterdam and Kuala Lumpur, to name but a few.

Possible careers

Successful graduates from these courses should be equipped to thrive not only in their specific sectors, but also in marketing, business or general management. Our graduates have gone on to work in a variety of leading sports and events organisations, such as the NEC, the Ricoh Arena, Chelsea Football Club and the ICC.

Employment support

To ensure you are able to gain practical experience in the sector, students may be given opportunities to engage in a volunteering activity or work experience at local, national or international event venues and sports teams, with previous students volunteering at large scale concerts, such as Rihanna at the Ricoh Arena, and at events such as BBC Sports Personality of the Year.

Further information

Please visit our website for detailed course information including subject specific entry requirements and current course fees. See **page 144** for more information.

Why Computing at Coventry?

Our set of Computing related courses focus on practical applications in industry, research and everyday life. We place an emphasis on your future employability, developing a wide range of technical, analytical, design and professional skills, many of which are gained from placement experiences and practical lab sessions. Whether your passion lies in developing software, learning how to prevent cyber-attacks, creating games or mobile apps, we will have the right course for you.

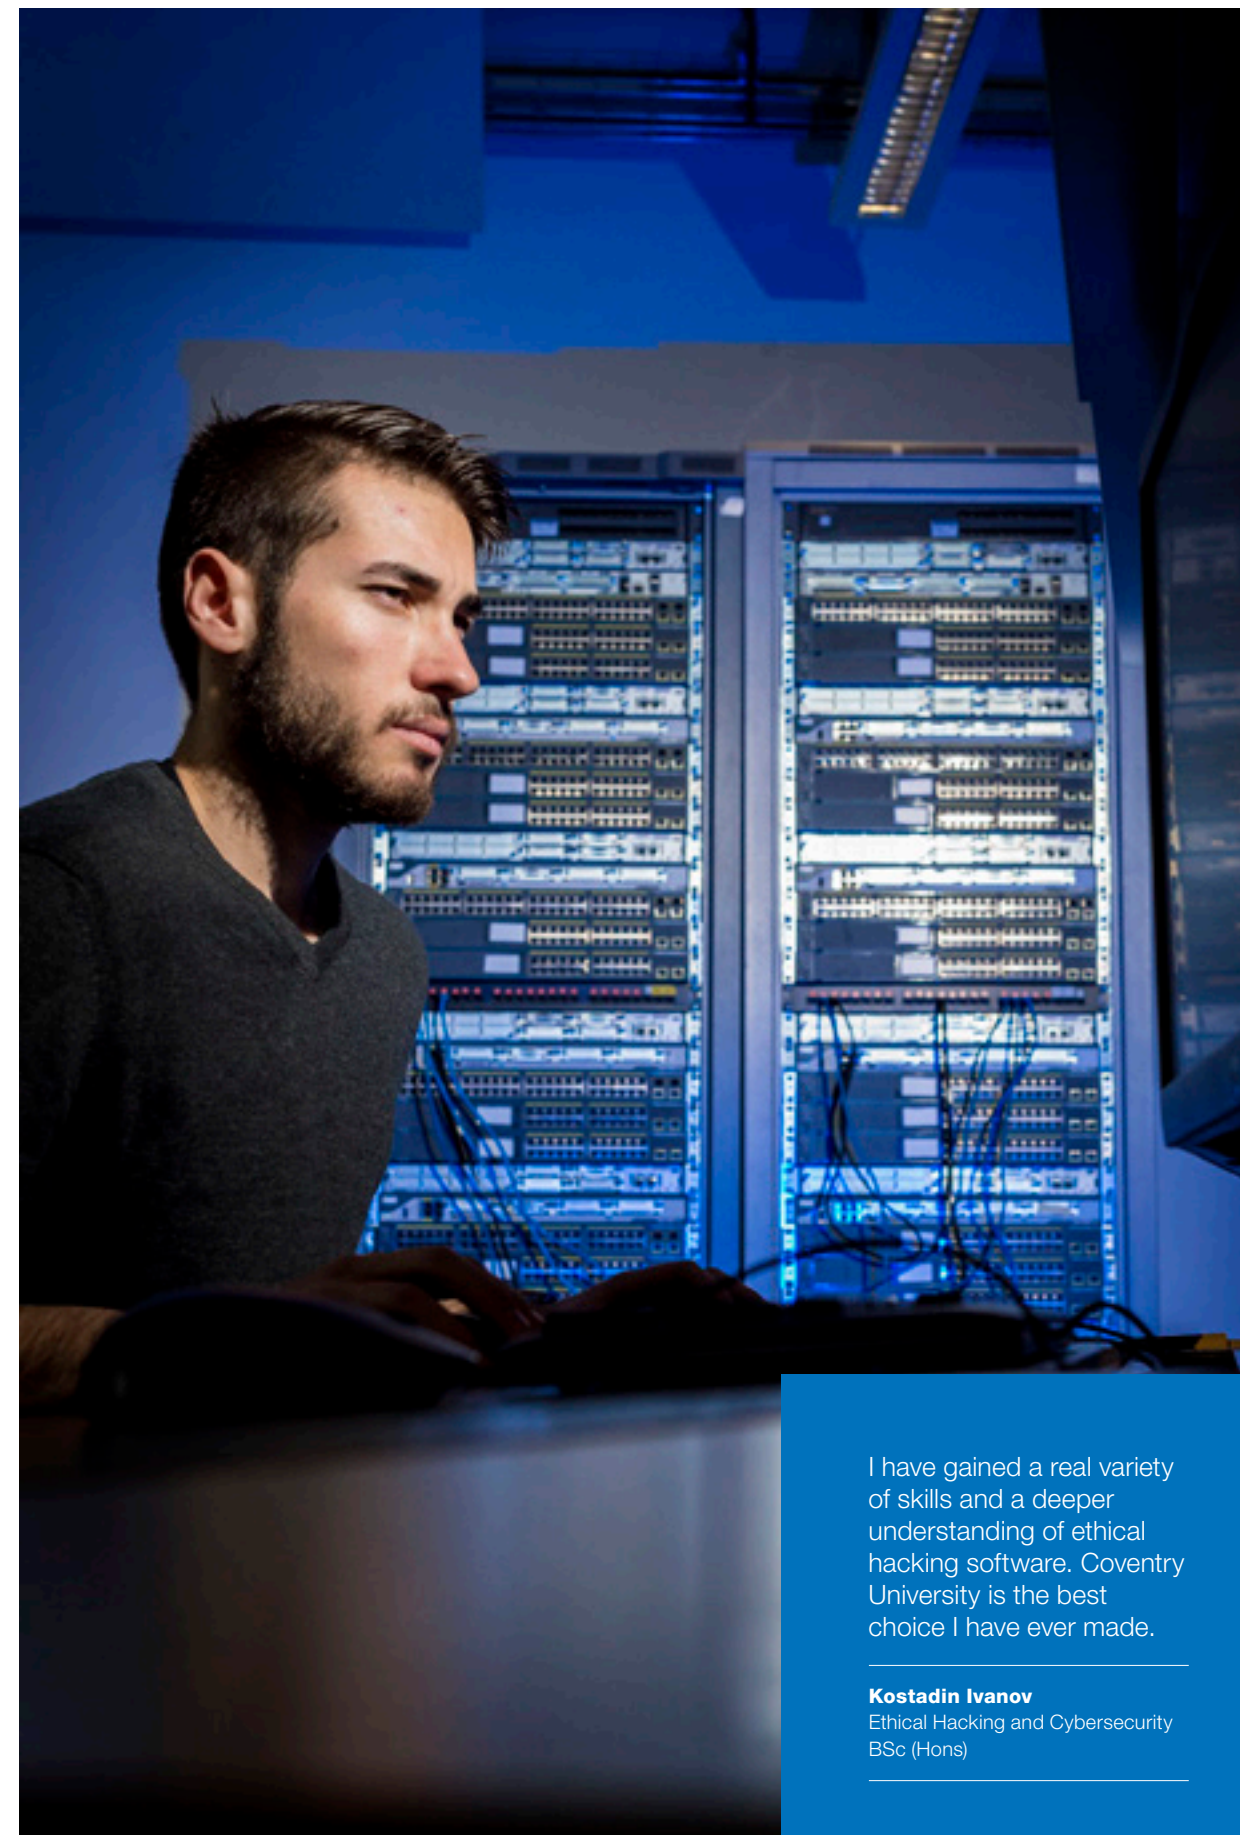

Our Computer Science course offers a combination of theory and practice in traditional areas of computer science, including programming and algorithms, computer architecture, networking, system design and implementation. To advance your specialist knowledge and skills further, the course offers the opportunity to progress from your undergraduate degree straight to a master's level qualification with our MSci course.

Our Computing course is a full stack developer degree, which aims to teach you the fundamental range of skills necessary to become a software developer. The course is designed to equip you with key programming, analysis and design skills including (but not limited to) back and front-end web development, internet-of-things development, user experience design, quality assurance and testing, system administration and security.

Ethical Hacking and Cybersecurity offers the opportunity to learn, identify and analyse the threats posed to modern information structures and develop the knowledge and skills to be able to advise companies on how to secure their systems. We place a strong emphasis on sound investigative procedures, logging and reporting, which is particularly suited to work within law enforcement agencies, as well as consultant organisations.

I have gained a real variety of skills and a deeper understanding of ethical hacking software. Coventry University is the best choice I have ever made.

Kostadin Ivanov
Ethical Hacking and Cybersecurity
BSc (Hons)

Computing (continued)

Our Games Technology course gives you the opportunity to develop your understanding of code design, testing and graphics, while equipping you with specialist skills in programming. You will have access to industry standard software, including Unity Games Engine, 3DS Max and Visual Studio. The course aims to give you a distinct advantage in starting your career, with recent graduates or internship students undertaking placements at Microsoft, Exient, Sony and Pixel Toys.

Information Technology for Business is designed to help prepare you for careers in the design, delivery and management of IT systems within a business. The skills learned could also be applicable to careers in web development, data analysis, content management, business analysis and project management. The course aims to teach you the fundamentals of software development and its application in driving business strategy and competitiveness in an international market.

Our Multimedia Computing course aims to combine the technical skills of a computing degree with the creative thinking required for working in the creative industry. The course focuses on developing skills for careers in web and smartphone development, audio/visual creation as well as 2D/3D graphics and animation. If you have a passion for new technology or would like to design, test, develop and implement cutting-edge products for the creative industries, this could be the course for you.

Specialist facilities and support

Our specialist facilities include a CISCO lab (maintained by CISCO certified staff), cybersecurity lab, ethical hacking lab, games technology lab, mathematics lab, Mac lab, parallel programming testbed and virtual labs.

Programming Support Centre

Our Programming Support Centre is a dedicated session for students on any computing degree to get extra support with programming. There's no need to make a booking, just drop in.

Possible careers

The technical content of our courses is reviewed and updated to reflect what is currently important and in demand in industry. We aim to help position you for a range of employment opportunities, from software, web and mobile development to roles in user experience, database/systems administration, IT business analysis and project management.

Further information

Please visit our website for detailed course information including subject specific entry requirements and current course fees. See **page 144** for more information.

Many aspects of our courses include activity-led learning elements. Examples include projects involving small groups of students working in specialist labs, with access to industry standard software.

Why Mathematics, Physics and Statistics at Coventry?

Coventry has a long tradition of teaching Mathematics, Physics and Statistics. We place a strong emphasis on developing your theoretical understanding and applying that knowledge to practical situations. We focus on supporting you to develop the analytical and problem-solving skills that are in high demand by employers, helping to open the door to a wide range of careers or further study.

Studying Mathematics alongside Statistics or Data Analytics allows you to develop valuable skills in data science. This could include analysing large data sets, building statistical models, or designing algorithms to help organisations make better decisions.

These courses explore fundamental topics in algebra, calculus and statistics. You will also have the opportunity to study subjects such as financial mathematics or coding and cryptography.

Accreditations and memberships which may apply:

Our Physics courses, introduced in 2019, explores phenomena at all length scales, from the sub-atomic level (quantum mechanics) to the macroscopic scale (cosmology), and everything in between. Through designing and conducting experiments, there are opportunities to develop skills applicable to many areas of employment and research.

Specialist facilities and support

Our **sigma** team offer free, expert one-to-one help with mathematics and statistics for all students on a drop-in basis. Our computer labs feature industry-standard software for mathematics and statistics, giving you access to some of the same tools used by employers.

Possible careers

Successful graduates have progressed to a wide range of careers at companies such as IBM, Warner Bros, National Grid, E.ON and Cummins. Others have progressed into teaching or postgraduate study to obtain master's or PhD qualifications.

Further information

Please visit our website for detailed course information including subject specific entry requirements and current course fees. See **page 144** for more information.

The teaching staff are very knowledgeable and always willing to help. We cover a wide range of subjects and I can really see how they will apply in a future career.

Why Construction at Coventry?

The physical, built and fabricated surroundings that are needed for every day life play a vital role in society. Training in this subject area can open up routes into an exciting, diverse and challenging careers that will enable you to help shape the built environment of the future.

Ranked 7th in the UK for Building and Town Planning (Guardian University Guide 2019), Coventry has been educating construction professionals for over half a century. Today we continue to keep in step with the changing needs of industry, its technological advancements and the growing importance of its social and environmental impact.

Global opportunities

In the second year, we organise an international field trip to provide you with an opportunity to experience the built environment in another country (fees may apply). In the last four years, students have attended field trips in Malta, Rome, Italy and Barcelona.

If you opt for a sandwich year, you can spend time studying abroad. We currently have links with other universities in Malaysia, Oman, Canada, France, Germany, Poland and the Netherlands, which provide opportunities for student and staff exchanges and joint student projects.

Specialist facilities

Facilities include a civil engineering workshop, composites facility, environmental chamber, hydraulics lab, materials lab, building services lab, metrology lab and the simulation centre - our interactive people training and development facility.

Possible careers

The practical nature of our courses place an emphasis on your future employability, developing a wide range of technical, analytical, design and professional skills, many of which are gained from placement experiences. Possible careers could include architectural technologist, building services engineer, building surveyor, construction manager, construction project manager or quantity surveyor.

Further information

Please visit our website for detailed course information including subject specific entry requirements and current course fees. See **page 144** for more information.

Why Geography, Energy and Disaster Management at Coventry?

From learning how historical and modern activities affect our cultural and built environment, to studying the patterns of the planet so we may be able to predict potential hazards in the future, if you are interested in making a difference to people's lives around the world then we could have the course for you. With over 40 years of expertise, Coventry is ranked as the 7th best university in the UK for Geography and Environmental Studies (Guardian University Guide 2019).

Global opportunities

All students are given the opportunity to complete an overseas field trip as part of their studies (fees may apply). In recent years we have visited China, Taiwan and Italy to observe and evaluate emergency management approaches or understand the measures that can be taken by people to address the natural hazards. Our current students explored The Gambia in West Africa to experience first-hand the workings of village communities and the challenges they face in education and health.

The optional sandwich year provides additional opportunities to broaden your international perspective by either studying or working abroad for a year. In the past, some students have chosen to study related subjects

in Madrid, while others have undertaken placements volunteering in schools in South Africa, Jordan, Hawaii and Mexico. Others have undertaken placements with GNS in New Zealand and with the United States Geological Survey in California.

Specialist facilities

Facilities include a soils laboratory, geotechnics laboratory, CAD studios, high specification computer laboratory, map room and the simulation centre - our interactive people training and development facility.

Possible careers

Typically, our students seek work with local authorities, government agencies, utility companies, research institutes, charitable organisations, field test centres and consultancies. Alternatively, they progress onto MSc or PGCE studies.

Duration: 3 years full-time or 4 years sandwich. [†]Subject specific requirements at A-level/BTEC.

Why Aerospace and Aviation at Coventry?

The UK has the second largest aerospace industry in the world, employing around 230,000 people in over 3,000 companies (Gov.uk, 2018), including BAE Systems, Airbus, GKN and Rolls Royce. The aviation industry supports 65 million jobs worldwide (IATA, 2018), with global passenger numbers forecast to grow from 3.8 billion to 7.7 billion by 2036 (ATAG, 2018).

Our Aerospace and Aviation courses offer innovative learning experiences and field trips coupled with strong industry links and placement opportunities.

Our Aerospace Systems Engineering course is designed to provide you with vital skills required to join aerospace systems teams developing the next generation of aircraft.

Our Aerospace Technology course focuses on developing your problem-solving skills and knowledge of how aircraft systems work, particularly in the areas of design support, product testing and in-service support.

Our Aviation Management course is designed for those seeking a career in airport or airline management and air transport services. This course offers opportunities to access our specialist educational and industry simulation software alongside aviation data resources.

Global opportunities

You will have the opportunity to undertake a placement year or study year abroad after your second year of study (subject to application and availability). We have traditionally organised a range of overseas field trips, including a visit to the Emirates Maintenance Centre in Dubai for Aerospace students. Aviation Management field trips have previously included visits to airport operators and airlines in Hong Kong, the US, Canada and the UAE (fees may apply).

Specialist facilities

Our High-Performance Engineering Centre includes flight simulation systems, a modified, vertical take-off Harrier Jet, a 1/5th scale wind tunnel designed by the Mercedes AMG Petronas Formula One team and a suite of CNC machining cells. Aviation Management students will also have access to our extensive media library of aviation specific video and audio material.

Possible careers

Our Aerospace courses aim to produce successful graduates with the skills to become detail-design engineers and engineering managers, both in aerospace and the wider engineering context, in fields such as aircraft and components design and manufacture, maintenance and testing, propulsion systems, flight simulation, aviation, avionics and patent engineering.

Our Aviation Management course aims to prepare you for a wide range of career options within the aviation industry either in the UK or overseas – from airline and airport management to air transport consultancy, roles with industry suppliers and manufacturers or in international logistics.

Further information

Please visit our website for detailed course information including subject specific entry requirements and current course fees. See **page 144** for more information.

Duration: 3 years full-time or 4 years sandwich. ¹Subject specific requirements at A-level/BTEC.
[†]MEng progression option available. Int denotes International code.

Why Automotive and Motorsport Engineering at Coventry?

If you have a passion for cars, an enthusiasm for engineering and design, together with excellent maths and IT skills, these professionally accredited courses will help put your interests and practical skills to good use.

Focusing on how engineering is used in automotive applications, our Automotive Engineering course is ideal for those seeking leadership positions in the development of new technologies and the design of future vehicles.

Our Motorsport Engineering course aims to support you in transforming into a motorsport engineer skilled in carrying out a comprehensive range of mechanically related tasks, in areas such as stress, temperature, kinematics and dynamics.

Both courses respond to the demand for engineers with strong analytical and problem solving skills to ensure the industry remains at the cutting edge of innovation. Both courses enable you to qualify first at undergraduate level, and then you can choose to follow the MEng pathway, a master's degree level, ideal for those seeking leadership positions in the development of new technologies and design of future vehicles.

You will work with staff on real-world problems from industry, commerce and research groups, as you would in professional practice; this means that you will have the opportunity to develop professional skills at the same time as you learn the technical content of your degree.

Global opportunities

You will have the opportunity to undertake a placement year or study year abroad after your second year of study (subject to application and availability).

Previously, students have studied at HAN University of Applied Sciences in the Netherlands, Esslingen University in Germany, Damen Shipyards in the Netherlands, CERN in Switzerland and Bertrandt in Germany.

Specialist facilities

Facilities include industry standard software and access to our High-Performance Engineering Centre, which includes a 1/5th scale wind tunnel designed by the Mercedes AMG Petronas Formula One team, full motion Cruden F1 simulator, chassis design and test facility, engine test cells, full-size vehicle shaker rig, metrology laboratory, composites material laboratory and a suite of CNC machining cells.

Possible careers

Career opportunities in relation to Motorsport include becoming a race mechanic or race engineer, roles as a manufacturing assistant engineer, composites laminator, design engineer, dimensional management engineer, or operations manager in motorsport engineering or related industries. Our Automotive Engineering course can lead to a range of technical, professional and managerial roles within the automotive industry. We also aim to provide you with an understanding of the design criteria required to create a successful brand and product, setting you on the path to registering and practising as a Chartered Engineer, once you have completed both a BEng and MSc or a single MEng degree.

Further information

Please visit our website for detailed course information including subject specific entry requirements and current course fees. See **page 144** for more information.

Why Civil Engineering at Coventry?

Responsible for planning, designing and building society's essential infrastructure, civil engineers take a lead role in maintaining the quality of our personal and professional lives, managing a range of construction projects, from bridges and buildings to transport links and stadiums.

Throughout your course, you will have the opportunity to develop technical knowledge, construction practice and undertake integrated project work. You will have the opportunity to learn the principles of civil engineering including engineering materials, analysis and design, highways and surveying, contract and project management, and ground engineering.

Global opportunities

Civil engineering is a global industry and these courses attract students from around the world, including Europe, China, Africa, India, Brunei, Malaysia and the Middle East, providing a multicultural learning experience. If you opt for a sandwich year, you can spend time studying abroad; we currently have links with universities in Malaysia, Oman, Canada and the European Union (fees may apply).

Accreditations and memberships which may apply:

Specialist facilities

Facilities include a civil engineering workshop, composites facility, environmental chamber, hydraulics laboratory, materials laboratory, building services laboratory, metrology laboratory and the simulation centre - our interactive people training and development facility.

Possible careers

In recent years the demand for civil and structural engineers has continued to rise, particularly in countries such as Australia, Singapore, New Zealand and China.

Possible careers could include civil engineer, environmental engineer, geotechnical engineer, site engineer or structural engineer. Graduates from these courses have gone on to work for engineering consultancies, contractors and local authorities, such as Arup, Mott Macdonald, Buro Happold, Atkins, Severn Trent and Warwickshire County Council.

Further information

Please visit our website for detailed course information including subject specific entry requirements and current course fees. See **page 144** for more information.

Civil and Environmental Engineering is a relatively new and challenging area, aimed at aspiring engineers interested in protecting the natural environment.

Why Electrical and Electronic Engineering at Coventry?

Electrical and electronic engineers perform a critical role in today's modern world, from designing and developing systems for almost every type of industry, to advancing the technology in our homes and businesses - from heat, light and power to telecommunications and transport.

Our industry-informed courses give you the opportunity to develop hands on experience with computer hardware as well as electrical and electronic systems. You will have the opportunity to discover the technology behind communication networks, embedded computer systems and electric vehicles.

The emphasis in these courses is on practical design and development, with access to the innovations that are changing the world of engineering. During your studies, you will have the opportunity to benefit from our links with industry, including companies such as IBM, National Grid, Mercedes Benz and Severn Trent Water amongst others.

Global opportunities

We have organised a number of international field trips for our past students. These have included attendance at the annual European Embedded Digital Signal Processing (eDSP) group, working with local staff and students in Lithuania, France and Germany; visiting the University of Shanghai for Science and Technology (USST) and visiting Jiang Su SAS-Tech Auto Industrial Company in Taicang City.

Specialist facilities

Facilities include industry standard software and access to our High-Performance Engineering Centre, electronics and electrical power laboratory, microelectronics laboratory, power laboratory and a dedicated project laboratory.

Possible careers

The practical nature of our courses place an emphasis on your future employability, developing a wide range of technical, analytical, design and professional skills, many of which may be gained from placement experiences. The technical content is reviewed and updated to reflect what is currently important and in demand in industry.

Possible careers could include power system engineer, control engineer, protection engineer, electrical and electronic engineer or circuit design engineer.

Further information

Please visit our website for detailed course information including subject specific entry requirements and current course fees. See **page 144** for more information.

Accreditations and memberships which may apply:

I have gained practical experience using excellent equipment to develop projects, preparing me for the real world.

Mechanical and Manufacturing Engineering

Courses	A-level	BTEC	GCSE
Manufacturing Engineering BEng (Hons)* UCAS: H700 / Int: ECU185 www.coventry.ac.uk/ug/H700	ABB- BBC†	DDM- DMM†	Minimum five graded 9-4 including English and Maths
Mechanical Engineering BEng (Hons)* 1 UCAS: H300 / Int: ECU155 www.coventry.ac.uk/ug/H300	ABB- BBB†	DDM†	Minimum five graded 9-4 including English and Maths

Duration: 3 years full-time or 4 years sandwich. *Subject specific requirements at A-level/BTEC.
*MEng progression option available. †Int denotes International code.

Why Mechanical and Manufacturing Engineering at Coventry?

A national skills shortage and Government push to promote the STEM agenda means that mechanical and manufacturing engineers are among the most sought-after and highly paid professionals in UK business.

These courses are designed to develop the next generation of highly skilled, specialist engineers. Industry-related projects will help to give you a feel of what the demands and expectations will be in the workplace, as well as enabling you to practice and apply your skills to real engineering projects. You will also have the opportunity to develop practical, hands-on experience in preparing, running and analysing results from experimental testing and numerical analysis.

Our suite of Mechanical Engineering courses are ranked 7th in the UK (Guardian University Guide 2019).

Global opportunities

You will have the opportunity to participate in field trips abroad, which have recently included trips to Poland, Bulgaria, China, Belgium and the USA. Mechanical Engineering students are also encouraged to undertake a placement year or study abroad year after their second year of study (subject to application and availability - fees may apply). Previously, students have studied at HAN University of Applied Sciences in the Netherlands, Esslingen University in Germany, Damen Shipyards in the Netherlands, CERN in Switzerland and Bertrandt in Germany.

Specialist facilities

Facilities include industry standard software and access to our High-Performance Engineering Centre, which includes a 1/5th scale wind tunnel designed by the Mercedes AMG Petronas Formula One team, a suite of CNC machining cells, automotive workshop, chassis design and test facility, engine test cells, full-size vehicle shaker rig and metrology laboratory.

Our Manufacturing Engineering students have full use of the Institute for Advanced Manufacturing and Engineering (AME), based at Unipart's Coventry site. This 'Faculty on the Factory Floor' allows you to experience technology on the manufacturing front line, including robotic automation, forming, joining, analysis and simulation, metrology and product verification technology.

Possible careers

Our courses provide a route for successful graduates into many careers with the global engineering industry, including aerospace, automotive, rail, marine, chemical construction and defence.

Our partnership with the Unipart Manufacturing Group ensures the Manufacturing Engineering course is highly vocational in nature, designed to produce industry-ready graduates, who are well prepared for their first role.

Further information

Please visit our website for detailed course information including subject specific entry requirements and current course fees. See **page 144** for more information.

Accreditations and memberships which may apply:

I love having the opportunity to learn theory in the classroom then apply it practically in the workshops, it's the best way to learn.

Why English and Languages at Coventry?

Our English and Language courses give students an opportunity to develop a thorough grounding in language and linguistics, developing your critical thinking, analytical, written and spoken communication skills, which are vital in almost any career.

Students are taught using traditional, digital and innovative teaching methods and platforms. The course teams aim to facilitate learning through observational and collaborative ways that empower students to take risks and explore their creativity.

With extensive professional links, you may have the opportunity to attend lectures and workshops with poets, playwrights, authors, renowned applied linguists and journalists (subject to availability). In the past these have included Professor David Crystal, the former Political Editor of the Irish Sunday Mirror and Editor-in-Chief of Classic Cars and Michael Binyon OBE, former Moscow Correspondent of The Times.

Possible careers

Recent successful graduates of these courses have gone on to work within education, marketing and public relations, journalism, and research coordination for companies including Stonegate, Granta Magazine, Deutsche Bank, and Oxford University Hospitals Foundation Trust. Graduates of these courses have also gone on to work for language service providers abroad and in the UK.

Further information

Why History and Politics at Coventry?

At Coventry you will have the opportunity to engage with History and Politics in creative, inventive and exciting ways. All our teaching staff are research active and we bring our disciplines to life by focusing on contemporary issues, using innovative methods, and celebrating the development of a critical imagination. We maintain strong relationships with organisations throughout the UK, including the local city councils, the Houses of Parliament, the National Health Service, Coventry Refugee Centre and Coventry Haven, organising a range of guest talks and workshops. This has previously included British MPs, high commissioners from African states, representatives from local charities and NGOs and speakers from major global corporations.

Coventry University is 9th in the UK for Politics (Guardian University Guide 2019).

We pursue innovative approaches to research and content creation. For example, our History students have the opportunity to learn documentary film-making and digital content creation as a part of their course.

Global opportunities

Our courses have a strong international focus and we have links to a number of institutions and partner universities around the world. Recently, we've visited anti-Mafia organisations such as Addiopizzo and Libera in Sicily, explored post-war Germany in Berlin and examined war, peace and identity in Amsterdam, The Hague and Brussels, as well as trips to Vienna, Budapest, Bratislava, Gothenburg, Krakow and New York.

Possible careers

Past successful graduates are now employed in the private sector in industries ranging from banking and finance to media, and across the public sector in education, the civil service, police forces, local authorities, politics, charities and Non-Governmental Organisations (NGOs).

Employability support

Student support is one of our top priorities and you'll be joining a lively, welcoming and friendly community. Our highly accomplished and multidisciplinary teaching team includes respected authors and experts in research in the UK, France, Germany, Italy, the Middle East, Africa and North America.

Further information

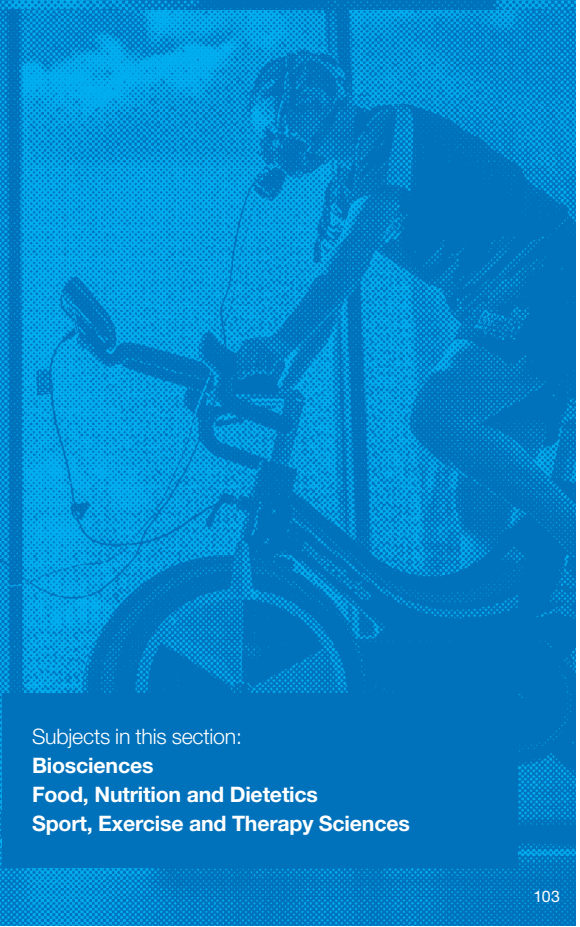

Please visit our website for detailed course information including subject specific entry requirements and current course fees. See **page 144** for more information.

My year abroad was an incredible experience. It was something that Coventry University offered in a way that nowhere else did.

Why Biosciences at Coventry?

We will fuel your scientific curiosity and encourage you to investigate key questions in contemporary science.

Coventry University is ranked 2nd for career prospects in Biosciences (Guardian University Guide 2019).

On our Analytical Chemistry and Forensic Science course you will have the opportunity to learn techniques used during the investigation of criminal offences in areas such as toxicology and fibre analysis, alongside molecular sciences.

Our Biological and Forensic Sciences course blends the study of human biology with the rigorous scientific techniques used in forensic laboratories, including analysis of blood, fibres, fingerprints, drugs, documents, DNA and fire/explosives residue to solve crime.

Biomedical scientists play a vital role in the diagnosis, prevention and treatment of disease. Our Institute of Biomedical Science accredited degree in Biomedical Science / Applied Biomedical Science integrates a wide range of subjects to promote the understanding of how the human body works and the biology of disease.

Accreditations and memberships which may apply:

Our Human Biosciences course aims to enhance your understanding of how the human body functions in health and disease at the tissue, cell and molecular level. You will study topics at the forefront of scientific discovery such as genetics, cancer biology and neuroscience.

On our Medical and Pharmacological Sciences course, you will explore human diseases and the drugs used to treat them. We apply pharmacology and physiology to topics including diagnosis, understanding and treatment of disease and classical clinical trial design.

Specialist facilities

The Alison Gingell Building is home to state-of-the-art laboratories for microbiology, cell culture, molecular biology/genetics, biochemistry and forensic science. Our facilities enable you to work in a professional environment from the day you join us.

Possible careers

Biosciences graduates work in roles across a wide range of industries including medical research, drug development and environmental analysis.

Further information

Please visit our website for detailed course information including subject specific entry requirements and current course fees. See **page 144** for more information.

The human body is one of the most amazing things in the world and laboratory work allows you to delve deeper into finding out how and why things work in the way they do.

Why Food, Nutrition and Dietetics at Coventry?

It's impossible to ignore the headlines about the impact on society of food, nutrition and diet-related health challenges as well as issues of food quality and safety.

Coventry University is ranked 11th for Food courses and 2nd for Food Sciences Graduate Prospects (Complete University Guide 2019).

Dietitians are qualified health professionals that assess, diagnose and treat diet and nutrition problems. Translating the latest nutrition science into understandable, practical information about food, they provide education and support to enable people to manage their health and treat nutrition-related disease. Accredited by the British Dietetic Association, our Dietetics and Human Nutrition course has a particular emphasis on public health and evidence-based practice. Graduates will be eligible to apply for registration as a dietitian with the Health and Care Professions Council (HCPC).

Our Food and Nutrition course is designed to help to prepare the next generation of food scientists and food-related professionals for the food science and technology, and consumer science industries. Focused on food science, product design, food analysis, quality assurance, and food safety, you will have the opportunity to develop an understanding of the complex commercial nature of the food industry, as well as the interactions between food composition, nutrient metabolism, food preferences and health.

Our versatile Food Safety, Inspection and Control course encompasses a variety of food issues with both a UK and international focus. Designed to meet the needs of the food industry and regulatory agencies, it covers skills including how to assess food safety risks, advise on food hygiene and safety, inspect food and food premises, and understand and apply legislation relating to food.

Drawing on the expertise of professionals from nutrition, public health and dietetics, as well as academics from biological and analytical sciences, our Nutrition and Health course is centred on human nutrition, health, psychology and behaviour of eating, and public health. It aims to enhance your understanding of the scientific basis of nutrition with an emphasis on human health and disease.

Possible careers

Depending on the course you study, there are a number of career options for graduates in the area of food, nutrition and dietetics. Many graduates work in the food or pharmaceutical industries, in areas such as new product development or food safety. You can also work in public health and the leisure and sport industries.

Further information

Please visit our website for detailed course information including subject specific entry requirements and current course fees. See **page 144** for more information.

Why Sport, Exercise and Therapy Sciences at Coventry?

The role of Sport, Exercise and Therapy Sciences in society has shifted significantly over the past ten years. It is now not only an area that we consider for top class athletes, we also explore how exercise science informs and underpins everyday life, helping people to live healthier and more fulfilled lives.

Coventry University is ranked 6th for career prospects in Sports Science (Guardian University Guide 2019).

Endorsed by the British Association of Sport and Exercise Sciences (BASES), our Sport and Exercise Science course will help to prepare you for a variety of graduate level careers in industry, professional sport, health and education. We aim to provide you with a strong scientific understanding of human anatomy, physiology, psychology and biomechanics. The course covers practical ability in laboratory techniques, reflective practice, multi-disciplinary and inter-disciplinary approaches to sport and exercise science support. It will give you the opportunity to learn how the healthy human body works during exercise, as well as how sport and physical activity promote health.

Sports therapists use sport and exercise principles to prevent, treat and rehabilitate injuries within recreational, training and competitive environments. Accredited by the Society of Sports Therapists (SST), our Sports Therapy course aims to provide the essential foundations of knowledge and to develop your clinical practice skills, which should put you in an excellent position for future careers within the therapy profession.

From the second year onwards, you'll have the opportunity to engage with clients in our on-site sports therapy clinic, and as immediate responders offering pitch-side support to our student teams and organisations.

Specialist facilities

The state-of-the-art Alison Gingell Building features specialist laboratories for sport science, biomechanics, strength and conditioning, a running track with force plates, 3D motion capture system for biomechanical analysis, sports therapy clinic and treatment practice rooms. There are also dedicated research areas for physiology and an environmental chamber. Specialist equipment includes the Alter G treadmill, Isokinetic Dynamometry, bod-pod and Vicon 3D motion analysis.

Possible careers

Sports and exercise scientists and therapists work with athletes at all levels of sport or can work within the leisure industry or for the national governing bodies of sports. Opportunities also exist in cardiac and other rehabilitation teams in the NHS or in sports development and health programmes.

Further information

Please visit our website for detailed course information including subject specific entry requirements and current course fees. See **page 144** for more information.

Why Dance, Music and Theatre at Coventry?

Here at Coventry, we encourage collaborative working across all the arts. Our ethos is to provide an environment to develop creative, dynamic, and able artists, musicians and practitioners who are versatile, resourceful, and ready for a career in the creative industries.

You'll be taught by our experienced faculty staff, who are practitioners, as well as invited professional guests who have previously included Théâtre Sans Frontières and Tony Iommi of Black Sabbath.

Global opportunities

Our music, theatre and dance courses have a global outlook. For example, our Theatre and Professional Practice students took part in a ground-breaking Immersive Telepresence in Theatre project conducted in conjunction with students and staff at the University of Tampere, Finland which won the internationally prestigious Gold Award for Innovation in Arts and Humanities at the Reimagine Education Awards in Philadelphia.

Specialist facilities

Performing arts courses are based in the Ellen Terry building, a converted 1930s art deco cinema that houses purpose-built and professional spaces. These include: five recording studios, two flexible performance spaces with lighting and sound control rooms, two dance studios with sprung floors, rehearsal rooms, two theatre workshop/set construction spaces and wardrobe facilities.

Our Music Technology students also receive a laptop that's pre-loaded with the latest suite of industry-standard software (conditions apply).

Possible careers

Recent graduates from these courses have worked with the Belgrade Theatre, the Birmingham Rep, Old Vic Theatre in Stoke-on-Trent, BBC and the Roundhouse in London. Our graduates have pursued careers as performers, producers, actors, recording engineers, composers and sound designers for film, television and games.

Employability support

We have close industry links with many established national and international theatre, dance and music organisations, including Frantic Assembly, Mandala Theatre, Talking Birds, Theatre Absolute, Big Brum, Desperate Men, Acrojou, and The Fabularium.

Further information

Please visit our website for detailed course information including subject specific entry requirements and current course fees. See **page 144** for more information.

Why Media at Coventry?

Continually evolving with input from researchers, practitioners, and industry, Media at Coventry encourages you to think and work critically, creatively, imaginatively and professionally.

We're ranked 1st in the UK for Film Production and Photography, as well as 14th in the UK for Journalism, Publishing and Public Relations (Guardian University Guide 2019), so our graduates are highly regarded in their respective professions.

Our Media students are issued with a laptop or tablet (dependent on the course and conditions apply), to be used in line with the 24/7 mobile learning scheme, which is pre-loaded with the latest suite of industry-standard software.

Staff and students have a strong track record of collaborative applied research and classroom-based projects with organisations including Google, Jaguar Land Rover and BT.

Global opportunities

Our courses have a strong international focus and we have links to institutions and partner universities around the world. Past international study trips have been to New York, Paris, Barcelona, Dublin, and Madrid to visit key industry events.

Specialist facilities

Media courses are based in the Ellen Terry building, a converted 1930s art deco cinema that houses purpose-built, and professional spaces. Our facilities include music studios, video recording, music editing suites, and radio studios. Media courses have access to The Tank Studio, a live HD audio and video production studio that houses high-end broadcasting technology. You will have the opportunity to access high standard professional media equipment through our Media Loan Shop, with equipment ranging from the most basic audio recorders to professional camera and lighting equipment.

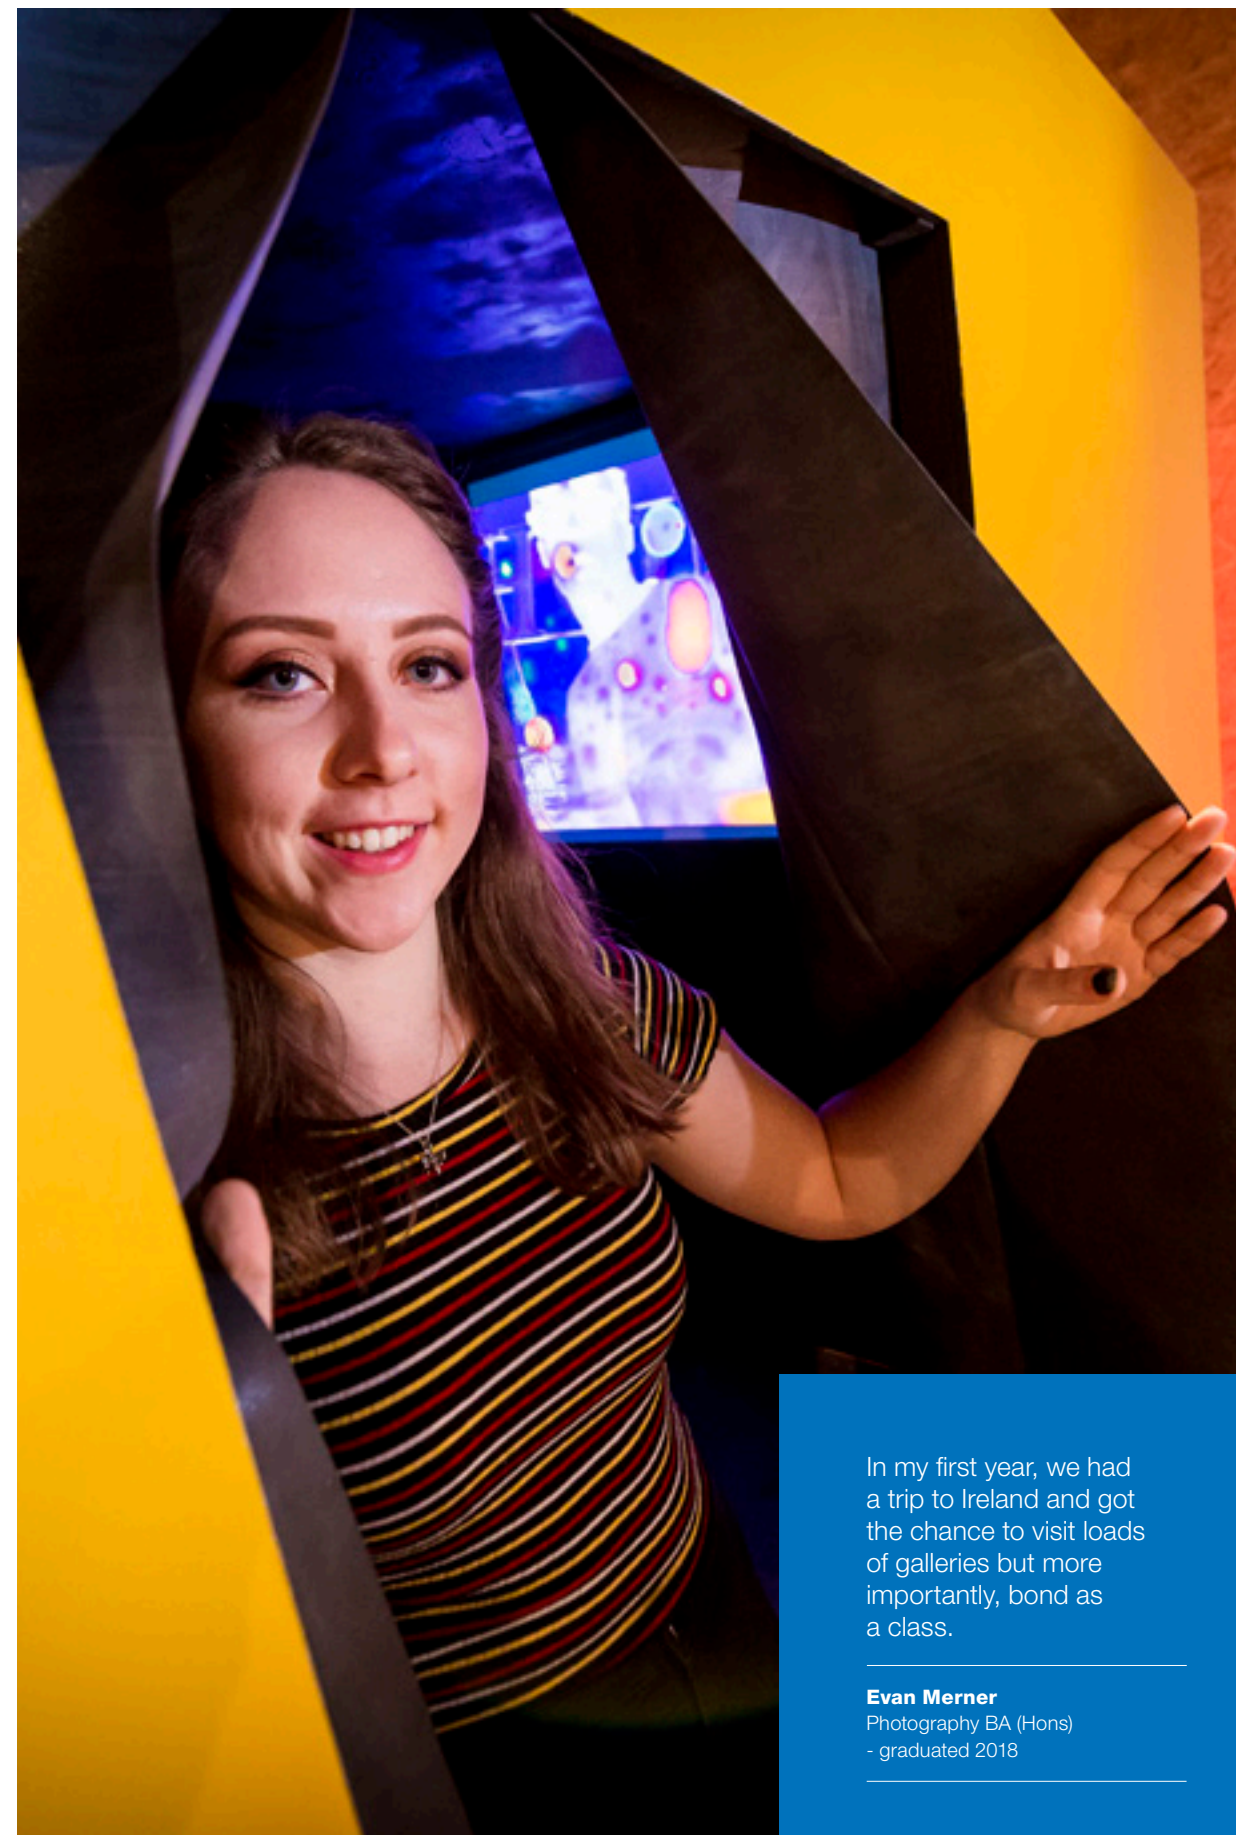

Possible careers

Graduates have become an executive producer in Hollywood, a BBC documentary maker, a DJ for national radio stations, and a journalist at Sky News. Other areas of graduate employment include digital marketing and advertising, IoT development, UI/UX design and testing, web and mobile app development and, increasingly, in augmented and virtual reality development.

Further information

Please visit our website for detailed course information including subject specific entry requirements and current course fees. See **page 144** for more information.

Why Healthcare Professions at Coventry?

Paramedics and operating department practitioners are at the frontline of patient care, working in fast-paced, dynamic environments and making a significant contribution to patient outcomes. Placements in practice are a key feature of these courses and our superb simulation facilities and expert staff will give you the opportunity to be prepared to make a difference in the real world.

Paramedics are often the first emergency service and healthcare expert on scene. They can administer a range of life-saving treatments and provide vital information and support to people suffering from a variety of traumatic injuries and/or medical problems.

Our courses aim to prepare you to face the challenges that come with providing emergency and urgent care to an ageing and diverse population in the pre-hospital and out-of-hospital environment.

You can choose the two-year FdSc or three-year BSc (Hons), both of which aim to equip you with the necessary skills and knowledge to apply for registration with the Health and Care Professions Council as a qualified Paramedic.

Working in a specialist and dynamic environment, Operating Department Practitioners (ODP) provide care during the anaesthetic, surgical and post-anaesthetic or recovery phases of a patient's journey throughout their time in hospital.

With a combination of academic study and placements, you will have the opportunity to work alongside highly trained and professional staff within the NHS and the private sector. Our expert teaching staff have extensive real-life experience and you will be able to take advantage of the state-of-the-art facilities in the new Alison Gingell Building. Successful completion of the course will make you eligible to apply for registration with the Health and Care Professions Council as a qualified ODP.

Specialist facilities

Our multi-million pound Alison Gingell Building features a mock ambulance, operating theatre and scrub room, hospital wards, critical care settings, community housing and other real life environments relevant to practice. This means you can practise and develop your clinical and interpersonal skills in a safe but realistic environment. We also have excellent relationships with local NHS trusts - including the West Midlands Ambulance Service - who provide placements for many of our students.

Possible careers

Paramedics do not just use their skills on ambulances, they also work on ships, in doctors' surgeries or in community based healthcare. Operating department practitioners work in operating theatres and other critical care areas in both the NHS and private sector.

Further information

Please visit our website for detailed course information including subject specific entry requirements and current course fees. See **page 144** for more information.

Why Nursing and Midwifery at Coventry?

A career in Nursing or Midwifery can be one of the most rewarding, challenging and varied professions there is. Our learning through exploration approach to teaching means you can practise and develop your clinical and interpersonal skills in a safe but realistic environment.

Coventry University is ranked 7th in the UK for Nursing and Midwifery (Guardian University Guide 2019). We have a range of courses giving you the opportunity to focus on specialist fields of nursing practice. Placements give you the opportunity to put your learning into practice in a real healthcare workplace.

Adult nurses work with a wide spectrum of service users across a vast range of services and settings – from A&E, critical care, medical and surgical wards to hospices, nursing homes, GP practices and in people's own homes.

It takes a very special person to nurse a child or young person. Our Children and Young People's Nursing course aims to develop your understanding of children's very specific health needs and how a healthy child develops towards adulthood to minimise the impact of illness.

Learning Disabilities Nursing is a great career choice if you are compassionate and keen to support people through the physical, mental and social challenges facing people with learning disabilities.

Accreditations and memberships which may apply:

26% of adults reported having been diagnosed with at least one mental illness (The Health and Social Care Information Centre 2015). Delivering research-based interventions to facilitate better mental health, our Mental Health Nursing course is designed to help improve the welfare of service users and their families.

Midwives play a pivotal role in supporting the health and wellbeing of women and their families during all stages of pregnancy, childbirth and the early postnatal period. You will have an opportunity to develop an understanding of the various approaches to childbirth and the professional skills required to lead in multidisciplinary settings, placing the mother, baby and family at the centre of care.

Specialist facilities

Our multi-million pound Alison Gingell Building features a mock ambulance, operating theatre, hospital wards, midwifery suite, critical care settings, community housing and other healthcare environments relevant to practice. We also have excellent relationships with local NHS trusts.

Possible careers

These specialist courses enable you to work with the relevant service users in hospitals, doctors' surgeries and community healthcare settings.

Further information

Please visit our website for detailed course information including subject specific entry requirements and current course fees. See **page 144** for more information.

The facilities in the Alison Gingell Building really help build your confidence in a safe, but realistic, environment before you go on placement.

Why Occupational Therapy and Physiotherapy at Coventry?

Occupational therapists help people with a variety of difficulties and disabilities to participate in activities that hold personal meaning and value to them, for example leisure interests or living with greater independence. Physiotherapists enhance the health and wellbeing of their clients by restoring functional movement following illness or injury. Both professions contribute significantly to enhancing the quality of life of their clients.

Coventry University is ranked 7th in the UK for Physiotherapy, and 8th in the UK for Occupational Therapy (Complete University Guide 2019).

Our learning through exploration approach to teaching is delivered in our superb simulation facilities, meaning you can practise and develop your clinical and interpersonal skills in a safe but realistic environment, before you go out to placement.

As the largest provider of occupational therapy education in the UK, you will be taught by an expert team of research-active, clinical specialist, registered occupational therapists.

Our Occupational Therapy course, which is accredited by the Royal College of Occupational Therapists, includes a combination of academic study and a number of practical placements. These placements occur in a variety of settings (NHS, social care, charitable organisations and private practice) where you will be supported by a practice educator.

Upon graduation, you will be eligible to apply for registration with the Health and Care Professions Council (HCPC). This allows you to work in a variety of fields such as paediatrics, elderly care, mental health and more.

Becoming a physiotherapist offers the opportunity for a challenging, rewarding and satisfying career. Accredited by the Chartered Society of Physiotherapy (CSP), our Physiotherapy course provides the skills, knowledge and experience to provide safe, effective physiotherapy practice.

One feature of the course is that your skills development and essential learning takes place in your first year, before you go on placements in the second and third year of your degree. This enables you to be well prepared and 'ready to go' by the time you enter professional settings. On graduation, you can apply to register with the Health and Care Professions Council (HCPC).

Specialist facilities

Our award-winning Alison Gingell Building provides excellent facilities for teaching. It features dedicated laboratories for anatomy, electrotherapy and manual skills, hospital wards, critical care settings, community housing and other real life environments relevant to practice.

Possible careers

Occupational therapists and physiotherapists work with a wide client base, in a variety of clinical and community settings. This can be in the workplace or people's own homes. Physiotherapists can work in sports clubs and health centres, or in medical environments supporting recovery.

Further information

Please visit our website for detailed course information including subject specific entry requirements and current course fees. See **page 144** for more information.

Why Criminology and Forensic Investigations at Coventry?

This group of courses looks at the causes of criminality and the various means by which society attempts to deal with it, as well as the practical and legal implications of forensic investigations.

Ranked in the UK's top 10 universities for Criminology (Guardian University Guide 2019), our courses give you the opportunity to gain experience through industry engagement, work experience and international field trips.

What are the causes of crime? Do prisons work? Is sentencing fair? Our Criminology course aims to provide you with a critical perspective to be able to answer these important questions and a variety of others, while casting an analytical eye over a criminal phenomena such as victimisation, punishment, and justice.

Bringing together two closely related disciplines, our Criminology and Law course explores the widely publicised and often emotive issues surrounding crime, punishment and justice. You will consider the strengths and shortcomings of the legal system and the various philosophical, political, social, economic and moral issues which have shaped it and affect us today.

Accreditations and memberships which may apply:

Our fascinating Criminology and Psychology course explores the role of crime and its control through the criminal justice process, drawing on aspects of applied psychology and the impact of crime and punishment. You will study issues surrounding crime, society and their associated psychological aspects, to help you understand how, and why, people think and behave in the context of crime.

Studying our Forensic Investigations course will help to develop your understanding of scientific methods of forensic analysis, as well as investigative techniques. It includes the interpretation and presentation of analytical evidence to explain or solve criminal or civil cases. We focus on providing practical experience, using real-life case studies and scenarios in our crime scene room and simulation community houses.

Possible careers

These courses help prepare you to work in a range of roles in the criminal justice system, including as a scene of crime officer, probation officer or in community safety and crime prevention. There are also opportunities to work in fraud investigation or cyber crime in the private sector.

Further information

Please visit our website for detailed course information including subject specific entry requirements and current course fees. See **page 144** for more information.

I just fell in love with Coventry University on the open day. The place, the way it was set out – it was really informative and everything was there.

Why Psychology at Coventry?

We have a passion for the many dimensions of psychology, exploring the behaviours, thoughts and actions of people, and applying these to the understanding of real-world problems. Our Psychology courses aim to provide a comprehensive grounding in the major psychological approaches to the study of human behaviour.

All of our Psychology courses are accredited by the British Psychological Society (BPS) and Coventry University is ranked 18th in the UK for Psychology (Guardian University Guide 2019).

Criminal Psychology focuses on engaging students with theories and application of psychological perspectives and techniques that help to explore human behaviour. It aims to help you to understand how psychology is applied to criminal behaviour, and how to select and report appropriate methods for this fascinating field.

Our Psychology course takes a scientific approach to understanding the human mind. You'll have the opportunity to learn from our expert staff how to investigate people's thoughts, feelings and behaviours using psychological research methods. Covering psychological theory, research and practical skills, it aims to help you understand how psychology is applied to real life, learning from a range of case studies, guest speakers and field trips (fees may apply).

Accreditations and memberships which may apply:

Sport and exercise psychologists use scientific research methods to explore how people's thoughts, feelings and behaviours affect their sports performance. On our Sport and Exercise Psychology course you'll study key factors, such as motivation, commitment, mental toughness, self-confidence, stress, anxiety, attitude to injury and concentration and learn how to support athletes at all levels to optimise their performance.

Specialist facilities

Our psychopharmacology laboratory is used to investigate and test ideas. You will have access to test human responses or use EEG (electroencephalography) technology to measure brain waves, enabling you to conduct ethical experiments and collect primary data.

Employability

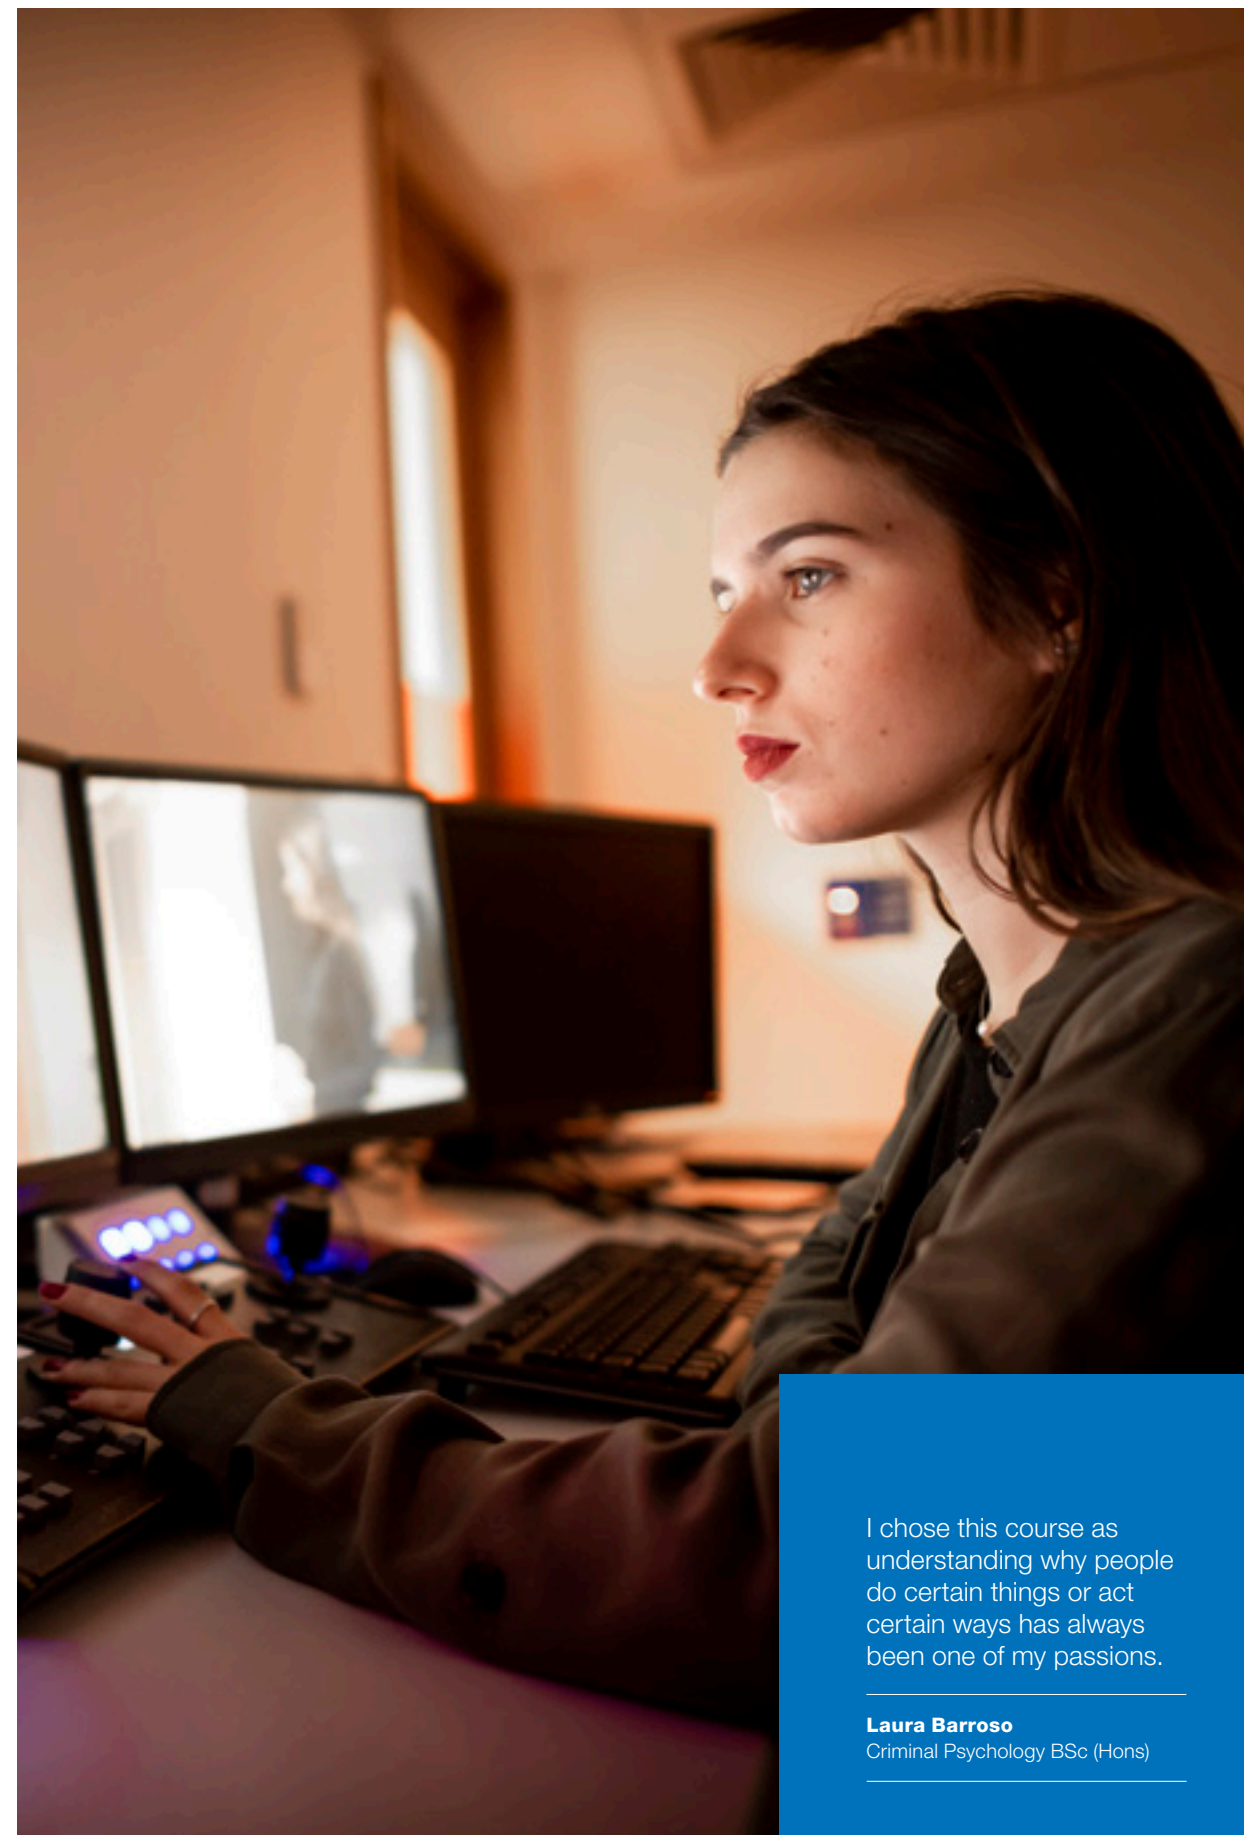

Work experience is a key part of our psychology courses, helping to ensure that you graduate not only with academic qualifications, but with relevant work experience and a host of transferable skills.

Possible careers

A BPS accredited psychology degree is the starting point for a range of careers in various fields of psychology including forensic, child, education or sport psychology. You may also consider careers in counselling or wellbeing (further study may be required for some careers).

Further information

Please visit our website for detailed course information including subject specific entry requirements and current course fees. See **page 144** for more information.

Why Social Sciences at Coventry?

At Coventry University, you'll have the opportunity to engage with the social sciences in constructive, inventive and exciting ways. All our teaching staff are research active and we bring our disciplines to life by focusing on contemporary issues, using innovative methods, and celebrating the development of a critical imagination. Our courses are hands-on, giving you the opportunity to investigate and document a situation, create and analyse your own data, and draw your own conclusions about the nature of society.

Global opportunities

Our courses have a strong international focus and we have links to a number of institutions and partner universities around the world. Recently, we've visited anti-Mafia organisations such as Addiopizzo and Libera in Sicily, explored post-war Germany in Berlin and examined war, peace and identity in Amsterdam, The Hague and Brussels, as well as trips to Vienna, Budapest, Bratislava, Gothenburg, Krakow and New York.

Employability support

Student support is one of our top priorities and you'll be joining a lively, welcoming and friendly community. Our highly accomplished and multidisciplinary teaching team currently includes respected authors and experts who have carried out research in the UK, France, Germany, Italy, the Middle East, Africa and North America.

Possible careers

Our Social Sciences degree is designed to help prepare you for future careers shaping policy or informing social action in local or national government, education, research, charity leadership and management.

Recent successful graduates from our Sociology and Criminology courses are now employed in the private sector in industries ranging from banking and finance to media, and across the public sector in education, the civil service, police forces, local authorities, politics, charities and Non-Governmental Organisations (NGOs).

Why Social Work, Childhood and Youth Studies at Coventry?

These courses are designed to help prepare you for a range of careers where you can make a real difference to people's lives. Our values-driven approach aims to help you to understand a range of factors which create barriers for some of the most vulnerable members of society, and enable you to contribute to enhancing the life chances of people in social need.

Our Childhood and Youth Studies course can open the door to a range of rewarding careers working with children and young people, helping to create a better future for the next generation.

Our multi-disciplinary approach enables you to explore a diverse range of subjects, such as education, sociology, psychology, health and welfare, safeguarding, and policy and practice. This will help to give you a far deeper insight into the behaviours, attitudes and influences of children and young people in their communities and society at large.

Importantly, you'll have the opportunity to put theory into practice, gaining relevant experience in a range of organisations. These could include charities and social enterprises together with more traditional settings, like local councils and schools.

International perspectives on childhood and youth will be threaded throughout the course, enabling you to develop a global understanding of how the health, wellbeing and social mobility of children and young people are promoted by practitioners. You will also have the opportunity to join international study visits or have an international placement (fees may apply).

Coventry University has been educating social workers for over 50 years and the course is grounded in practice, so that you experience first-hand the contemporary challenges and rapidly changing patterns of social work provision.

There aren't many careers or degree courses that make you feel like you're giving back to society in the way social work can.

On our Social Work course you'll initially study a range of academic topics designed to help you better understand people's needs and life journeys, then you'll put theory into practice on placement in a range of social work and care settings, dealing with complex situations and learning alongside experienced social work practitioners.

This course is professionally accredited by the Health and Care Professions Council (HCPC). Upon successful completion of this course you will be eligible to apply to the HCPC to register as a social worker.

Possible careers

Childhood and youth and studies graduates can work in youth and community work, child and family support or progress to postgraduate teacher training courses. Social workers work in a variety of settings, supporting vulnerable people in schools, community settings, or third sector organisations supporting particular service users, such as homeless people.

James Ind
Social Work BA (Hons)

Top-up courses

We offer a number of courses that enable students to 'top-up' their existing qualifications to gain a full undergraduate degree.

If you have successfully completed a Higher National Diploma (HND) or Foundation Degree and want to study further, you could progress onto the final year of an Honours degree course with a top-up degree.

A HND or a Foundation Degree is an excellent qualification in itself, but you may have career ambitions that could be fulfilled with an Honours degree. It typically takes one further year of study to top up your HND or Foundation Degree.

By topping up your current qualification to an Honours degree, you can help to demonstrate to an employer that you have the academic, organisational and management skills needed for your chosen career path. It may also lead to even better opportunities in the future.

International students who want to improve their English and have already completed a degree can study English for Business BA (Hons), a top-up degree that has a dedicated English Language element.

Please contact the relevant faculty directly for information on these courses.

Coventry University London

Coventry University London offers you the opportunity to study a business-related degree in the capital of the UK. Coventry University London is at the heart of one of the most successful business and financial centres in the world, just minutes away from the Bank of England, the London Stock Exchange, and the offices of numerous world-leading organisations.

Employability focus

We put employability at the core of all our courses. You will have the opportunity to develop your business skills through a range of experiences, from work-based learning in global organisations to our networking events with industry leaders. We have relationships with a large number of employers including The Ritz London, Genesis, Deloitte and Barclays. Work experience opportunities are available on all courses.

Specialist facilities include a Trading Floor equipped with Bloomberg Terminals, a Standard and Poor's computer suite, an Enterprise Hub for meetings and networking, and a fashion studio.

International outlook

The London campus is home to over 1,800 students from more than 80 countries, which means that you will have the opportunity to gain an international experience from the outset. Many of our courses offer students the chance to undertake part of their degree outside the UK. Alternatively, our Go Work programme also provides students with the opportunity to gain valuable work experience outside of the UK (fees may apply).

Guest lectures

Coventry University London works with a number of high profile and local employers who frequently deliver guest lectures on campus. All students have the opportunity to attend these additional lectures and to put their questions to employers. This is a great insight into how companies work and the skills they look for in graduates.

www.coventry.ac.uk/london

London life

At Coventry University London, you can take advantage of the countless free attractions London boasts, alongside those with discounted entrance fees for students. In addition to four UNESCO World Heritage Sites, including the Tower of London, London also offers a variety of world-class theatres, museums and art galleries. The campus is within walking distance of the famous Spitalfields Market, with over 350 years of trading history. Brick Lane, the Museum of London, the Bank of England, the Monument and St Paul's Cathedral are just a few of our students' other favourite places to explore near campus.

Practical business application

We put employability at the heart of everything we do to ensure you are equipped with the skills valued by employers. All our courses are designed to be interactive and relevant to the business world. You will have the opportunity to benefit from a mixture of lectures, seminars and group work, while many assessments are coursework based.

Entrepreneurial spirit

Our Enterprise Hub is a dedicated space for you to network with fellow entrepreneurs and experts to help you to make your business idea a reality. A number of our students have successfully launched businesses in the UK and overseas. The university has worked with several international students, endorsing their entrepreneurial projects so that they can secure a Tier 1 (Graduate Entrepreneur) visa.

Foundation courses

The International Study Centre, based in a nearby part of the centre of London, offers a number of foundation programmes which provide direct routes onto a range of degrees at Coventry University London. You can find out more by visiting www.coventry.ac.uk/london/isc.

Entry requirements

HND, Foundation Degree or equivalent (with a merit profile or above) in a relevant subject

Duration

1 year full-time or

2 years part-time (UK/EU only*)

*EU students should be aware that there may be a change to UK laws following the UK's planned exit from the European Union, this may change their student status, their eligibility to study part time, and/or their eligibility for student finance. Coventry University will act in accordance with the UK's laws in force in relation to student tuition fees and finance at that time.

Coventry University London is a modern university close to world-leading organisations, giving me a great opportunity to connect and network with finance professionals.

Patrick Da Veiga
Global Financial Trading MSc

CU

CU offers a style of university education which is flexible and designed to fit around your life. We aim to provide career-focused courses, coupled with placement opportunities to help prepare you for the world of work.

Students benefit from a variety of modern teaching facilities and a choice of three campuses. We offer a range of academic qualifications all of which are awarded by Coventry University.

A nationwide offering

The relationship between CU campuses gives you the opportunity to move between each campus after completing an academic year¹. This means you can study in the city, capital or coast.

CU Coventry's new campus opened in March 2019. Located on the outskirts of the city-centre, the teaching space is designed to provide students with a bright, open learning environment.

CU London's campus opened in 2017. CU London is based in the Grade II listed former Dagenham Civic Centre, and offers top quality facilities including a law court, labs, IT suites, breakout study spaces and an on-site restaurant.

CU Scarborough, located on the stunning Yorkshire coast, opened the doors to its state-of-the-art campus in September 2016. The student-centred design means everything you need is located under one roof.

Study modes that fit modern lifestyles

CU offers a number of flexible study options, ensuring you can study at a pace that suits you.

Full-time classes take place at a fixed time each day, in either the morning or afternoon, so you are able to plan your studies around your life. At CU we understand a September start doesn't suit everyone, which is why we also offer November, January, February, April and June intakes².

If you're looking to get a degree via part-time study, we offer a variety of options including evening and Saturday classes, with opportunities to begin your course in October, January, April and June². Depending on how quickly you would like to finish your course, you can complete a degree in as little as three years.

For selected programmes you could complete your degree in two years via accelerated learning. You'll follow the full-time study pattern but you will study six blocks per year instead of the standard four, therefore completing your degree in two years rather than three.

An alternative style of university education

CU's offering is specifically tailored to make higher education accessible. We keep our class sizes small to provide you with higher contact hours with tutors and in an attempt to ease the pressure of university life, we've moved away from end of year exams.

We offer a range of BA, BSc, BEng and LLB qualifications, (certain courses are only available at specific campuses). Our courses are also available as HNC level 4 and HND level 5 stages.

Foundation Years provide an entry route onto degree-level study. They are suitable for those who have completed some level 3 study, such as A-levels, and want to change subject area or haven't met the entry criteria to start a degree. If you successfully pass this stage, you are guaranteed a place on a CU degree programme.

At CU Coventry and CU Scarborough, we offer Access to Higher Education courses. These are level 3 qualifications which help students to prepare without traditional qualifications for higher education study. They offer an introduction to a subject area as well as provide the skills needed for study at university. If you successfully pass your Access diploma, you are guaranteed a place on a degree course at CU.

Tourism & Hospitality Management
BA (Hons)

Entry and fees

Two of the biggest concerns that students have when deciding to apply to university are meeting the entry requirements for the course, and the cost of studying/potentially living away from home.

The following information will help you to understand how we assess course applications, as well as the options available to you in terms of financial support.

Please be sure to always refer to the specific course pages on our website for the latest and most accurate information regarding detailed entry requirements and tuition fees, or contact us directly at ukadmissions@coventry.ac.uk.

Entry requirements

Each of our undergraduate courses have a unique set of entry requirements that you'll need to meet to gain access to the course. When making an application through UCAS before you've achieved your qualification(s), we'll take your predicted grades into consideration when deciding whether to make you an offer.

You'll find typical entry requirement grades for each course within this prospectus for A-level and BTEC qualifications. However, please be aware that we accept a wide range of qualifications (including IB Diploma and Access qualifications), and some courses may also require you to have studied certain subjects at GCSE or A-level¹.

Some of our courses (especially those that are creative or professional in nature) may also require you to attend an interview or submit a portfolio.

Applying from outside of the UK?

Entry requirements and fees may differ depending on where in the world you're applying from. Please refer to the relevant course pages, Student Contract and the Tuition Fee Terms and Conditions for specific entry requirements and fees for your country (www.coventry.ac.uk/legal-documents).

Fees and finance

Tuition fees - Tuition fees are calculated per year of study and can vary depending on the course you are looking to study. Usually though, undergraduate courses tend to cost the same, and many of our courses cost £9,250 per year starting from September 2019. Prices may change due to inflation and governmental factors. As of printing this prospectus, fees for courses starting in September 2020 have not yet been set, so it's always worth checking our website for the latest information regarding tuition fees.

Cost of living - As well as your course fees, you'll also need to consider the cost of living at university - you could find your money goes further here in Coventry. Your cost of living will depend on your lifestyle and spending patterns. Reassuringly, Numbeo.com, a worldwide database, listed the cost of living index in Coventry as 20% lower than in London in August 2018².

Financial support - As an undergraduate student, you may be entitled to two types of financial support - tuition fees loans, and maintenance loans.

A tuition fee loan usually covers your course fees in full per year and is paid directly to the university. However, you can also apply for a maintenance loan to help you with your living costs whilst at university, and this is paid directly into your bank account³.

Student loans aren't like standard loans that you would receive from a bank, in the sense that you only start paying them back once you are employed and earning over a certain amount of money per year.

For more information regarding financial support, including eligibility details, please visit www.gov.uk/student-finance.

¹or equivalent qualification. ²www.numbeo.com/cost-of-living/in/Coventry. ³You may have to give details of your household income to determine your eligibility.

Application guide

1. Find

There are a few ways you can get more information before applying - you can check out courses on our website, or compare them on the UCAS and Unistats websites. Forums like The Student Room are also a good source of background information on student life.

2. Visit

If you haven't already, visit us at an Open Day. You'll have the chance to speak to students and lecturers, and see our fantastic facilities first hand - it's the best way to get a feel for living and studying in Coventry.

3. Apply

Once your heart is set on a course, you can apply through UCAS for full-time study. You can apply directly to us for part-time study* or if you're applying from outside the UK/EU*. If you are applying through UCAS, be sure to submit your application before the 15 January 2020 deadline.

4. Prepare

If you are invited to an interview, audition or portfolio review, then this will be communicated to you via email and will contain a booking link. Take a look at our online course pages for advice on what is required for the course you've applied for.

5. Wait

Keep an eye on any updates to your application on your UCAS Track. You can sign in at any point after you've applied. You'll be able to check if any of your university choices have offered you a place, as well as reply to your offers.

6. Reply

Once you have received your offers, it's time to decide your 'Firm' and 'Insurance' universities. Now is a great time to visit us at an Applicant Visit Day. You can also join our Offer Holders' Facebook Group and meet others who have been made an offer to study here too.

7. Results

Hopefully you will have met the grades needed - check UCAS Track on results day to see whether you've been accepted on to the course. If you haven't received the grades you were expecting, get in touch with us - we may have spaces available through Clearing.

8. Welcome

Congratulations - and welcome to Coventry University. There will be lots to do when you arrive, including enrolling and attending your induction. During Welcome Festival, you'll have the opportunity to make new friends and find out more about our Students' Union societies.

*EU students should be aware that there may be a change to UK laws following the UK's planned exit from the European Union, this may change their student status, their eligibility to study part time, and/or their eligibility for student finance. Coventry University will act in accordance with the UK's laws in force in relation to student tuition fees and finance at that time.

A message from our Vice-Chancellor

As both the Vice-Chancellor and double graduate of Coventry University, you will struggle to find someone to whom this university means as much as it does to me. That's why it gives me great pleasure to be able to play a small part in your decision to study with us.

I hope we have shown you in this prospectus what sets Coventry apart. Our forward-thinking approach, modern facilities and focus on practical learning have resulted in Coventry being ranked the 13th university in the UK¹ as well as the University of the Year for Student Experience 2019².

We are proud to be consistently rated highly in the National Student Survey, as well as being rated Gold for outstanding teaching and learning³. The best thing about this, especially from your point of view, is that it shows we have a great track record in delivering a quality education that meets our students' expectations.

It's an exciting time for the city too – since our historic inception back in 1843 as the Coventry School of Art and Design, we have played an integral role in the narrative of the city, and are proud to have contributed towards Coventry being named UK City of Culture 2021. This is a fantastic achievement for our city and we cannot wait to see what winning this award brings for us in the near future.

Come to one of our Open Days and discover for yourself why thousands of students choose this award-winning university every year.

We'll put your future first.

Professor John Latham
Vice-Chancellor and CEO, Coventry University
Extraordinary Professor, Stellenbosch University

September 2019

19

October 2019

09

November 2019

If you'd like to find out more about the university and the subject, or subjects, you're interested in, attending an Open Day is a great opportunity to meet our academic staff and current students and ask them any questions you may have.

It's also the best way to get a real feel for what it would be like to study here. You will have the opportunity to find out more about our courses, our approach to teaching and learning, and our facilities. You can also find out about the support we offer to all our students, including careers advice and international placement opportunities.

You will be able to go on a walking tour with a current student and also see first-hand our student accommodation, on and around campus.

We also run smaller 'drop-in' events on specific Wednesday afternoons. These are informal opportunities for you to speak to our staff and get a taste of what we can offer.

Alternatively, you can join one of our student-led tours which take place on weekdays throughout the year. These offer an extended walking tour of the campus and its immediate surroundings, with the option to finish with lunch in TheHub in the centre of campus.

For a virtual tour visit www.coventry.ac.uk/virtualltour.

To find out more about Open Days, or to book your place, please visit our website.
