# Bachelor of Architectural Engineering

## Professional Occupations

- Architectural Engineer
- Site Architect Engineer
- Project Manager
- Quantity Surveyors
- Site Manager
- Architectural Inspector
- Sustainable Engineer

## Program Overview

Architectural Engineering combines architecture with engineering to focus on the link between design systems and construction strategies. If you are interested in building things, thinking about how things work, drawing, model design, working with your hands, working with others, then Architectural Engineering is the career for you. You will not only study architectural design, but you will also attain a technical background in structural, mechanical, electrical, plumbing design, and building services engineering. A degree in Architectural Engineering from Alfaisal University will prepare you for employment in a number of different fields in both construction and architectural.

## Competitive Edge

Consistent with the mission statements of both the University and College of Engineering, the Architectural Engineering program at Alfaisal University delivers an educational program of study that prepares its graduates to become innovative and internationally recognized leaders in industry, government, and academia. Architecture Engineering students are trained to find innovative and creative solutions for complex engineering challenges through AEC education, research, and community involvement. Our faculty hold degrees from world-renowned universities, with the majority from North America. Additionally, our faculty have a high success rate in obtaining new research projects in both new and established disciplines. Furthermore, small class sizes provide students with the opportunity for individualized instruction.

# Bachelor of Electrical Engineering

## Professional Occupations

- Electrical Engineer
- Communications Engineer
- Electrical Design/Systems Engineer
- Electronics Engineer
- Control Engineer
- Power Engineer

## Program Overview

The Electrical Engineering (EE) program at Alfaisal University is a four-year program that further comprises an industrial training experience as well as a capstone project in its final year. The program is carefully designed to offer a strong starting point in the general electrical engineering discipline, and prepares the students for both becoming an industry practitioner or pursuing graduate studies. A student of the program is involved in the four main sub-disciplines, namely communications, control, electronics and power. In addition, the student is exposed to contemporary and state-of-the-art knowledge in the areas of computer architecture and computer networks. True to the University's student-centric mission, great emphasis is made throughout the program on students gaining independence and autonomy, as well as acquiring professional skills in communication and engineering practice.

## Competitive Edge

Alfaisal Electrical Engineering program is uniquely designed to match the contemporary requirements of the practice. Both the program content and delivery undergo continuous review, with benchmarking to national, regional and international programs performed on an annual basis. The program's mission is strengthened by internationally trained and practising faculty members who also possess strong teaching and research profiles. The instructional and supporting staff are carefully selected to enable the highest levels of delivery. Engagement in industrial visits and field trips are also a staple of the program's activities.

# Bachelor of Industrial Engineering

## Professional Occupations

- Industrial Engineer
- Manufacturing Engineer
- Quality Engineer
- Human Factors Engineer
- Supply Chain Planner
- Management Engineer
- Process Engineer

## Program Overview

Engineering systems may be modelled as an interaction between subsystems such as machines, software and people. Such interactions are made of different flows of energy, materials and data. Industrial Engineering is about arranging subsystems and their interactions so they work more effectively and efficiently. Industrial engineers design systems and processes and optimize existing ones in order to improve quality, productivity and worker's safety. They work to eliminate waste of time, material, energy, and make good use of available capital like human and financial resources. While other engineers work on building systems, Industrial engineers work on making them better. Industrial engineering education is a fertile fusion between the engineering and business realms, and hence it provides opportunities to work in different fields including but not limited to: supply chain and logistics, healthcare, manufacturing, banking and financial institution and information technology.

## Competitive Edge

Highly competitive world market enforces companies to continuously adopt new management philosophies to stay in business. Globalization makes the pressure even higher. The demand for industrial engineering profession is increasing rapidly where productivity and quality are the main drivers to gain a competitive edge. Industrial engineering term is not just about manufacturing as the term implies, it also comprises service industries such as shipping and logistics, healthcare, banks and government agencies. At Alfaisal University, our industrial engineering program offers students the latest industrial engineering practices. Our curriculum is developed and benchmarked with well-known western universities in the industrial engineering field. We continue to recruit outstanding faculty members and the majority of our staff are western graduates. We are proudly experiencing our success by having the majority of our graduates currently employed by top private companies and government agencies in the Kingdom

# Bachelor of Mechanical Engineering

## Professional Occupations

- Design Engineer
- Production Engineer
- Manufacturing Engineer
- Fabrication Engineer
- Research & Development Engineer
- Tooling Engineer
- Maintenance Engineer
- Process Engineer
- Quality Engineer
- Mechanical Engineer
- Power Engineer
- Consulting Engineer
- Test Engineer
- Sales Engineer
- Analytical Engineer

## Program Overview

Mechanical Engineering is concerned with the design, development and manufacturing of machines/mechanical parts and components, based on the principles of engineering, physics and material science. It is one of the oldest and the broadest of the engineering disciplines. Subjects in mechanical engineering overlap with various other engineering branches such as aerospace, architecture, biomedical, civil, chemical, computer, electrical, electronics and communications, industrial, instrumentation, materials, metallurgical, nuclear and petroleum engineering to varying amounts. The engineering field requires an understanding of core concepts including mechanics, kinematics, thermodynamics, material science, structural analysis and power. Mechanical engineers use these core principles along with tools like computer-aided engineering and product life cycle management to design and analyse manufacturing plants, industrial equipment and machinery, heating and cooling systems, transport systems, aircraft, watercraft, robotics, medical devices, military equipment and others.

## Competitive Edge

The Mechanical Engineering program at Alfaisal University is concerned with up to-date technology, applications, and current industrial needs. The program focuses on producing high-quality graduates and prepare them to the current tough conditions in the field and challenges in the industry. The ME program focuses on three major disciplines; Power, Manufacturing, and Design. These three disciplines (based on the principles of engineering, physics and material science) cover energy conversion, power plant technology, air conditioning, renewable energy systems, energy efficiency, development and manufacturing of machines and components, and materials. Our faculty hold degrees from world-renowned western universities as well as a high-research output in both new and established disciplines; furthermore, small class sizes provide students with the opportunity for individualized instruction.

# Bachelor of Software Engineering

## Professional Occupations

- Software Engineer
- Software Analyst
- Software Developer
- Software Architect
- Software Project Manager
- Software Quality Manager

## Program Overview

Software Engineering is the study and application of engineering principles to the design, development, and maintenance of software systems. It combines computing science, engineering, and mathematics into a unique and potent blend. The demand for software engineers has been high worldwide and is still on the rise. At Alfaisal, the Software Engineering curriculum will prepare you with both theoretical and applied expertise in this technically challenging and highly competitive field. Students build problem-solving skills to develop market-driven innovations and to be leaders in software systems development and maintenance. They are exposed to the business and management side of engineering; project management, e-commerce, economics and management for engineers. This exposure develops excellent entrepreneurship skills and offers employment opportunities, especially in the fast growing sector of software companies.

## Competitive Edge

Our Software Engineering program is designed to provide a solid foundation in the main topics of the software engineering body of knowledge. This foundation allows our graduates to excel in the design, development, operation, and maintenance of complex software systems. Our faculty hold degrees from world-renowned western universities; additionally, our faculty have a high success rate in obtaining new research projects in both new and established disciplines. Furthermore, small class sizes provide students with the opportunity for individualized instruction.

## College Collaborations

## Admissions Requirements

For admission criteria and how to apply, visit <http://admissions.alfaisal.edu>

For more information about Alfaisal's Software Engineering, visit [http://coe.alfaisal.edu/departments/se\\_home](http://coe.alfaisal.edu/departments/se_home)

## Alumni Network

Our Alumni network spans some of the most influential national and international companies and institutions

- Microsoft
- Boston Consulting Group (BCG)
- IBM
- SADAD
- National Commercial Bank (NCB)
- Saudi Ministry of Health
- Thales
- Oracle

## Software Engineering Tracks

Two new optional tracks are available for software engineering students in the areas of:

- Cybersecurity
- AI & Big Data

Students will be able to tailor their senior-level technical electives to study new emerging technologies in these areas. More details are available on the department's website.

CHM 102	Introduction to Chemistry	3
CHM 102 L	Introduction to Chemistry Lab	1
MAT 101	Calculus I	3
PHU 103	Mechanics and Waves for Engineers	3
PHU 103 L	Mechanics and Waves for Engineers Lab	1
ENG 101	Freshman English I	3
	<b>Total</b>	<b>18</b>

Sophomore Year - Fall Semester		
Course Code	Course-Title	CRHs
SE 201	Introduction to Software Engineering	3
SE 214	Algorithms and Data Structures	3
SE 214 L	Algorithms and Data Structures Lab	1
SE 220	Object-Oriented Programming II	3
SE 220 L	Object-Oriented Programming II Lab	1
MAT 212	Linear Algebra	3
ENG 222	Technical Writing	3
	<b>Total</b>	<b>17</b>

Junior Year - Fall Semester		
Course Code	Course-Title	CRHs
SE 310	Software Design and Architecture	3
SE 312	Database Management Systems	3
SE 312 L	Database Management Systems Lab	1
SE 314	Operating Systems	3
SE 314 L	Operating Systems Lab	1
EE 305	Computer Networks	3
EE 305 L	Computer Networks Lab	1
ISL 101	Islamic Studies I	2
	<b>Total</b>	<b>17</b>

Junior Year - Summer Semester		
Course Code	Course-Title	CRHs
SE 390	Software Engineering Summer Internship	0
	<b>Total</b>	<b>0</b>

Senior Year - Fall Semester		
Course Code	Course-Title	CRHs
SE 412	Software Testing & Quality Assurance	3
SE 414	Software Project Management	3
SE 4 __	Technical Elective	3
SE 4 __	Technical Elective	3
SE 495	Software Engineering Capstone Project I	3
ISL 112	Islamic Studies II	2
	<b>Total</b>	<b>17</b>

Freshman Year - Spring Semester		
Course Code	Course-Title	CRHs
SE 117	Software Practice and Society	3
SE 120	Object-Oriented Programming I	3
SE 120 L	Object-Oriented Programming I Lab	1
MAT 112	Calculus II	3
PHU 124	Electromagnetism and Optics for Engineers	3
PHU 124 L	Electromagnetism and Optics for Engineers Lab	1
ENG 112	Freshman English II	3
	<b>Total</b>	<b>17</b>

Sophomore Year - Spring Semester		
Course Code	Course-Title	CRHs
SE 212	Discrete Structure for Software Engineers	3
SE 225	Software Requirements	3
SE 225 L	Software Requirements Lab	1
EE 210	Digital Logic Design	3
EE 210 L	Digital Logic Design Lab	1
MAT 224	Numerical Methods	3
STA 212	Probability and Statistics for Engineers	3
	<b>Total</b>	<b>17</b>

Junior Year - Spring Semester		
Course Code	Course-Title	CRHs
SE 322	Internet of Things Application Development	3
SE 324	Web Application Development	3
SE 324 L	Web Application Development Lab	1
SE 328	Mobile Application Development	3
SE 328 L	Mobile Application Development Lab	1
SE 330	Introduction to Cybersecurity	3
ARB 101	Arabic Language and Literature I	2
EE 308 L	Electrical Energy Conversion Lab	1
	<b>Total</b>	<b>15</b>

Senior Year - Spring Semester		
Course Code	Course-Title	CRHs
SE 423	Software Construction and Processes	3
SE 4 __	Technical Elective	3
SE 4 __	Technical Elective	3
SE 496	Software Engineering Capstone Project II	3
ARB 112	Arabic Language and Literature II	2
	<b>Total</b>	<b>14</b>

Smart, desirable, feasible, marketable innovation to make the world better is what we do. IT'S WHAT YOU'LL DO.
